

Galveston, Texas  
9 April 1945

Dear Dr. Allen -

You have been on my conscience for quite a spell. Frankly, I have missed you and all of the fine friends of civilian days so much. Only the challenge, excitement, adjustment and tempo of service life has filled the void.

It was fine to hear from you and I thoroughly enjoyed your Rebound News Letters. I can appreciate the effort for I have carried out a similar plan for the men who have been trained or had a tour of duty here and are now at distant spots.

Dorothy and Cobby read them all and we have rehashed some of the golden moments spent with you and the boys.

Yes, I had a letter from Anne McLowen and Claud Monnett about the trip to Norman. Then, last year Gus Harrington, an O. U. Phi Delta and now a vice-president of the First National, wrote that he carried a car load of your boys to Norman.
