

I certainly do not want to end up as viceroy of some malaria infested island in the Pacific but if the rich uncle sends me - O.K.

Doc there'll come a day - but it is still hull down on the horizon - when the young and the old veterans will return to their native haunts and we'll be ready for a few spots, a bit of quiet living and part of all the old-time friends who have stood the test of years.

So, carry on Doc, it is men like you who ~~have~~ given our kids the zeal, courage and will to do a job in this dirty mess.

Thanks again for your kind letter and the news. With best regards to Mrs. Allen, Milt & Bob. I am,

Ever a friend
Bob,

H. C. Burnett
