

NEWSPAPER ADVERTISEMENT TO BE PLACED
BY THE ORDNANCE PLANT - CONTINUED

Here's suggested copy for the advertisement shown on the preceding page - to be set in the blank space left in the ad.

At this moment eight United States Army Ordnance Plants are critically short of manpower and womanpower.

At the Sunflower Ordnance Works in Lawrence, Kansas, 1000 more workers are needed this month - 4000 more this year - to meet urgent schedules laid down by the Army.

Sunflower Ordnance Works makes powder for the Army's big guns and rockets - the big guns that are clearing the way for our advancing foot-soldiers, saving American lives.

Will you help make it?

See the local United States Employment Service, apply in person, write, or telephone collect.
