

PHYSICAL TRAINING DEPARTMENT
FREDERICK ARMY AIR FIELD
Office of the Physical Director

PEF/wjr

Frederick, Oklahoma
13 August 1945

Forrest C. Allen
Physical Education Director
Varsity Basketball Coach.

Dear Dr. Allen:

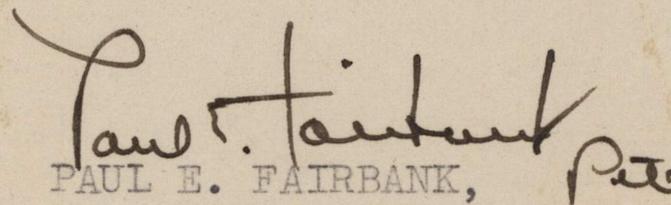

Thanks for your letter of the 10 August.

It begins to look as though this war is about over, and if it should end soon, perhaps Air Fields such as this can forget about basketball teams. I certainly hope it does end very soon. We have some great material here and a couple of the boys should have great careers ahead of them.

I became acquainted with Stan Stauffer while he was stationed here at Frederick. He advised me to write and get on your mailing list. I'd appreciate receiving publications that you send from time to time regarding the former Kansas Athletes in the service. I've become very well acquainted with Gordon Gray since I've been in the service. He's always spoken very highly of you. We took our officers training together and have visited with one another several times. He's stationed at Waco Army Air Field and I understand had quite a good basketball team last year. I hope that if we both have teams this year that we are able to play one another.

Thanking you for the quick reply regarding the basketball game and wishing you continued success at the University of Kansas.

I sincerely hope that Mr. Quigley is up and around soon and in good health.

PAUL E. FAIRBANK,
Capt., Air Corps,
Physical Training Director
