at sea

LT. (jg) DAVID FRANCISCO, (MC) USN
USS PRESIDENT ADAMS
Care of Fleet Post Office
San Francisco, California

July 16th 1945

Dear Doctor Allen,

Your very kind letter of May 4th, together with the Rebounds numbers 15 and 16 were included in my last mail call, on the 9th of this month, when we received about 3 ~~months~~ week's mail. In the same mail I had a letter from Dr Latimer and from several of my class mates and friends, including Dean Brooks.

Dean wrote from the States. He had received orders to a naval hospital in Medford, Oregon with 15 days delay in reporting and was awaiting his relief. So probably you have seen Dean recently; he has certainly earned his Stateside duty.

I saw Art Nichols' ship recently, but have not had a visit with him in some time. Major Carl Lundquist, MC, '27, of 51st General Hospital, APO 75, San Francisco, is a loyal Jayhawk who practiced in K.C. before the war. I saw him recently; he has good facilities and living conditions, and the hospital, which recently moved, is ready to receive patients. I know he would greatly enjoy the Rebounds, as would my cousin,
