

May 4, 1945.

Lt. (jg) David Francisco, MC, USN,  
USS President Adams,  
c/o Fleet Postoffice,  
San Francisco, Calif.

Dear Doctor David:

I am sorry that your letter of May 1 arrived just after we had closed the mimeographing of our Jayhawk Rebounds. We certainly are happy to put you on the mailing list, and we are only sorry that we could not include some part of your letter in our Rebounds. Write me from time to time your interesting slants and I will be very happy to incorporate a part of your letter in our communication. The nice part of the thing would have been to let the other fellows know where you are so that they could communicate with you as you have with Fred Bosilevas.

I Saw D

I saw Dr. Dean Brooks father yesterday, and they had received a letter from him. So remember to drop me a line after the receipt of this Rebounds which we are mailing you.

Bobby Allen terminated his internship July 1 and will go into the Army medical corps active service. Dean Werner is sitting to my left here waiting to take up a matter, and his son-in-law, Dr. Andy Mitchell, I think will continue a residency at Bell.

I know what a wonderful thrill you must feel when you see color return to those cold, near-lifeless forms after the administration of plasma and blood. That is one of the great compensations. I am sure after this war there will be much valuable information in the medical annals regarding the continued improvement in treating shock.

Good luck to you, Doctor David, and I assure you I was mighty happy to hear from you. Thank you for your kind words.

Sincerely yours,

Director of Physical Education,  
Varsity Basketball Coach.
