Dear Phog:

This little note will acquaint you with the fact that I feel that I can recommend Dan Wagner, Captain of the Schreiner Institute basket ball team this year, as a very fine prospect. He is a forward of the George Rodey type and at present finishing his work at Schreiner which is located at Kerrville, Texas.

This is the first time I have ever recommended any one to you or any one else because of athletic ability but I feel that you should know about this boy. I do this only after he has told me he would like to playbasket ball for you which means a lot to me.

Congratulations on your successful season and with best personal regards.

Very truly yours,

N.P. Isenberger
