

September 10, 1940

Superintendent Frank L. Irwin
Superintendent of Schools
Stafford, Kansas

Dear Superintendent Irwin:

I am sending you the information that you requested in your long-distance phone call last evening. I have checked with the Athletic Office and find that on July 20, 1935 we ordered these wire baskets from the Green Brothers Hardware Company in Lawrence, Kansas.

I have checked with Mr. Green and he tells me that he is making up an order for the Lawrence High School Athletic Association at the present time for 100 baskets. The Lawrence High School baskets, I understand, are made to the order of 10 x 12 x 24. We measured the University baskets and they are 10 x 12 $\frac{1}{2}$ x 24 $\frac{1}{2}$. The baskets are made by some firm in Kansas City, Missouri but I could not learn from Green Brothers the name of that firm. I have suggested to Mr. Green that he write you a special delivery letter today so that you could get the information in the morning.

We paid sixty cents apiece for these baskets in 1935, and I understand that is the same price they are quoting this year. They come in serial numbers, with aluminum number plates. They are very rigid and a well-built basket, and I believe they will fit your needs.

Please give my regards to Coach and Mrs. Stuckey. We are very fond of them.

With all good wishes, I am,

Sincerely yours,

Director of Physical Education and Recreation
Varsity Basketball Coach
