Dr. F. C. Allen
University of Kansas
Lawrence, Kansas

Dear Dr. Allen,

I saw Carlson today for recheck of blood pressure which is slightly high, but not of any great significance now.

This boy may not have what it takes to play good basketball, but I'm sure he would be more stable if he had more sleep, and perhaps more food. You probably can get more out of him than I can, or perhaps you know about his schedule.

Sincerely,

Ralph I. Canuteson, M.D.
Director
