

September 4, 1944.

Dr. R. I. Canuteson,
Watkins Memorial Hospital,
University of Kansas.

Dear Dr. Canuteson:

Arman Pressel came to me this morning. I examined his pedal extremities and found them in very bad condition. However, I believe that we can make a definite contribution toward this boy's welfare. I prescribed certain exercises for him and will report to you in a short while regarding his condition.

Sincerely yours,

FCA:AH

Director of Physical Education,
Varsity Basketball Coach.
