

December 9, 1941

Dr. Ralph I. Canuteson
Director
University Health Service
Watkins Memorial Hospital
Campus

Dear Dr. Canuteson,

Thank you very much for your communication of the 6th instant.

Richard W. Keene is no longer out for basketball, and Charles Walker tells me that he reported for his physical examination the first week that the boys were asked to come to the hospital. I have told Charles to return and straighten the matter out. I have told Warren Israel to report to you at once.

The four freshman boys whom you indicated had not received examinations are no longer out for freshman basketball.

Thank you again for your report.

Sincerely,

Director of Physical Education and Recreation
Varsity Basketball and Baseball Coach

PCA/PE
