

January 26, 1938.

Miss Ruth Hoover,
Trinity Lutheran Hospital,
Kansas City, Missouri.

Dear Miss Hoover:

We are so pleased to learn from reports that come to us of your successful voyage through the ether waves, the surgeon's skill, and your hasty and ultimate recovery. We called the hospital yesterday afternoon to learn that you were getting along nicely. I conveyed this information to both Miss Dunkel and Mrs. Bauman.

This morning I was over in Dean Schwegler's office meeting with the curriculum committee, and I informed Dean Schwegler and the other people that you were convalescing. Of course, it was a surprise to Dean Schwegler, Dr. Turney, Dr. Bayles, Dr. O'Brien, and Mr. Russell. All of them wished to express to you their very best toward a hasty and complete recovery.

We trust that it will not be long before you will be entirely well and be back with us. We will keep in touch with your progress and if any of us are navigating the avenues of Kansas City we may drop in and say hello. Until then you have our department's, as well as our family's best wishes. I might add also that the men's department have been informed and they are all pulling for you.

With every good wish, I am

Sincerely yours,

FCA:AH

Director of Physical Education.

P.S. I just talked to Dr. Anderson and learned that each morning he gets information from the hospital, so we will keep in touch with him. He said you had a fine recovery from your operation and he is expecting you to be in much better health, if such a thing could be, as you were always so eager and ready to go.

F.C.A.
