

October 27, 1945

Dear Mr. Allen:

Concerning the queen election for homecoming, I talked with Mr. Montgomery again, and he gave me the following information.

Film size - 16mm.
Length - between 400 and 500 feet
Time - not to exceed twenty minutes
Kodachrome

Twenty-four University co-eds will be entered and photographed. Each girl will have a number which will be placed on her portrait which she submits and on the film. The judging team will put down the number of the girl for whom they wish to vote.

I was unable to see Mr. Ellsworth because he had gone to Wichita, and as yet I have been unable to see Mr. Hedrick. However, since it is almost certain that they will o.k. the plan, perhaps we could go ahead and try to get a team.

Allen Crafton is going to help us with the staging and meet with the queen candidates in order to help them so as to avoid awkwardness before the camera.

The various houses are being phoned so they can elect their candidates for queen before Tuesday.

Thanks again for your help and encouragement.

Sincerely,

Lois Thompson
