

I certainly will be looking forward to a Kansas championship in the Big Six this year.

Things here at Purdue have been going pretty smoothly. We lost a couple of heartaches during the past week — one to Notre Dame by 2 points and one last night to West Lakes 51-50.

Track is coming along O.K. From early season indications we should have a pretty strong team. There are a lot of promising Freshmen but I've found out that upperclassmen, although they don't star in practice, can be counted on for the most points in almost any meet.
