Dr. F. C. Allen,
Kansas University,
Lawrence, Kansas.

Dear Mr. Allen,

If you're worn out from writing letters for me, I guess you just as well tear this letter up. Again I call upon you.

I am making application for WAVE Officers training and need my letters of Recommendation once more. I am interested in the WAVES from the standpoint of the rehabilitation program and their Recreation and Welfare work.

If I am accepted, after completion of the 9 weeks basic training, I would do Recreation and Welfare work for a while until their rehabilitation work gets further underway.

A letter of recommendation is to be a character reference and regarding my ability to get along with and supervise groups, both large and small. Leadership I certainly will appreciate anything that you may write. I believe the letter should be written to: WAVE Recruiting
