THE GAME OF GOLF

"GOLF--IT IS A SCIENCE--the study of a lifetime, in which you may exhaust yourself but never your subject. It is a contest, a duel or melee, calling for courage, skill, strategy and self-control. It is a test of temper, a trial of honor, a revealer of character. It affords the chance to play the man and act the gentleman. It means going into God's out-of-doors, getting close to nature, fresh air, exercise, a sweeping away of mental cobwebs, general recreation of the tired tissues. It is a cure for every care--an antidote for worry. It includes companionship with friends, social intercourse, opportunity for courtesy, kindness and generosity to an opponent. It promotes not only physical health, but moral force." David R. Forgan.

Forwarded with pleasure by W.L. Winey Jr. for the reading benefit of those whose ambition in golf is high and regular.
