APO 495, c/o PM, NY, NY:

I look forward eagerly to resuming my place in the life of Lawrence. I look upon that city as home, and am glad to hear of your activities in trying to make it a better place to live. Wish I were where I could cast my vote for you.

I am one of those who greatly appreciates Jayhawk & Chawnds. Keep them coming.

I do hope you find someone who fills Alberta's shoes satisfactorily. After all her feet arent too big. Congratulations on your fine b. b. team. Seems as though all you need is a few uniforms - and several battles of water. I like to brag about the success of our b. b. teams.

Bye for this time Doc - Any little note you find time to dash off is a thrilling episode in this drab life.
