Dear Phog:

Of course you understand and I am sure realize that I understand how Mit felt. And, my old combative friend -- I know how you feel. I am sure you understand that the joy is also mine just to be able to say a nice deserving word about Phog or any member of Phog's family.

I will be waiting until Mit gets back and hope to see him then.

With kindest regards and best wishes.

Sincerely,

Lacy Haynes
