Mr. William G. Hook, 830 First National Bank Bldg., Wichita, Kansas.

Dear Bill:

Your letter regarding Allen Burch, Kansas Alpha '14, came to the house when Mit was here, and we all enjoyed hearing from you, and we assure you and Allen Burch that we are strong for you.

I also received a postcard from Tom Harley, andold Lawrence lawyer in Wichita asking that we do likewise.

I trust that he and you are successful in your quest to land him in the Supreme Court. He is very deserving.

Fratemally yours,

Director of Physical Education, Varsity Basketball Coach.

Lawrence, Kansas.

Dear Brother Phi Psi:

Allen Burch, Kansas Alpha '14, more familiarly known to his brothers in the fraternity as "Doc" Burch, is a candidate for nomination to the Supreme Court of Kansas.

I am pleased to recommend Allen Burch to you for two reasons. He has been a good Phi Psi for thirty years and it would be a distinct honor to the fraternity to have a member of Phi Kappa Psi on the Supreme Court of Kansas. As a fellow attorney practicing in Doc's home town, I am acquainted with his legal ability and background and I know he is the caliber of man we need on our Supreme Court.

Allen Burch is a graduate of our own University of Kansas Law School. He has practiced in the state and Federal Courts for twenty seven years, and would bring to the Supreme Court a working knowledge of law and justice.

If you are a Republican, I solicit your active support for the candidacy of our Brother Phi Psi at the primary election August 1st. If you aren't a Republican, I hope you will support Brother Allen Burch at the general election, provided he secures the nomination to the Supreme Court at the Republican primary.

Sincerely and fraternally,

William C. Hook

ABOUT HEALTH

THE DOUGLAS COUNTY HEALTH UNIT, City Hall, Massachusetts Street, at llth, functions daily from 8:00 A.M. to 5:00 P.M. Come in and tell us your troubles.

TUBERCULOSIS

IT is an infection caused by Bacillus tuberculosis, more specifically and accurately Myobacterium tuberculosis hominis. There are definitely different families for cattle, birds, and fish. Occasionally bovine tuberculosis attacks humankind, especially babies. This is part of the factual background for requiring so much meat and milk inspection and supervision. Around twelve percent of all human deaths are believed to be caused by tuberculosis. In the United States the rate is only about two-thirds that much.

For a little more than a generation we have been trying to do something about tuberculosis in Kansas. In 1909 the late Dr. S. C. Emley, of the medical faculty of Kansas University took a two year leave and spent it in traveling about the state with a special car (railway car) lecturing, giving demonstrations, and distributing literature about it. At about the same time the Sanatorium at Norton was founded. Within the next ten years the Tuberculosis and Health Association became active all over the state and for about twenty years has maintained a monthly tuberculosis diagnostic clinic in Lawrence. They have spent about 25,000.dollars on this clinic and associated activities and have raised about 32,000 dollars for the work in Kansas and elsewhere. Many cases have been diagnosed here and the contacts have been investigated and followed up. Several cases have been traced to their probable origins and doubtless many cases thus stopped before they got started.

This disease has been progressively and more fearingly known for several hundred years. Bunyan called it "Captain of the Men of Death". The study of it was becoming more coordinated, less superficial and more coldly scientific in the latter half of the last century when Robert Koch, in 1882 discovered the specific bacillus and did his monumental work on it and his epoch making "postulates". Since then things in this field have moved faster, with less error, and with more results. In 1900 the death rate from tuberculosis in the registration areas of the United States was 201.9 per 100,000 and in 1930 it was 71.5. It is doubtless less now despite the presence of war which always increases the number of cases and the deaths from tuberculosis.

Why don't we all get it? Most of us do. Some careful studies made in Germany on bodies of city dwellers, dead from other couses than

tuberculosis showed that ninety percent of them had healed tuberculous lesions. We believe the percentage in our country is much less but we still consider that more than half the population is infected before reaching maturity. Why don't we all die of it? We all have a relatively high resistance to it and most of us have enough to enable us to heal it in and so far isolate and wall it up as to make symptomatic and practical recoveries. Were it not for this relatively high resistance, this one little "bug" might readily terminate our species. The great Osler in a posthumous edition of his work on Practice of Medicine, when this matter is under discussion, says "Only a natural immunity keeps the race alive".

Something can be done about increasing this resistance and about preventing exposure to infection. In either event it is important, almost imperative, to know who is infected. Several tests and forms of examination are in use, all calculated to get useful information, bearing on this point. The State Board of Health, the Tuberculosis and Health Association, the Kansas Medical Society, the Douglas County Medical Society and the Douglas County Health Unit are joined in promoting a case finding campaign in this county. It will be done mostly by X-Ray examinations, but in doubtful cases, other modes will be employed.

The apparatus will be set up in the Community Building in Lawrence, will be offered for use three periods each day and will continue from May 25 to June 1, inclusive except Sunday and Decoration Day. There will be convenient toilets, dressing rooms, and the like, and helpful attendants. Approximately definite appointments may be made for individuals or groups.

Everybody is not only invited but urged to take this examination, (I expect to take it myself.) but there are some special groups that cannot well afford to miss it. Some of them are: Teachers, Food Handlers, Cooks, Waitresses, TB Suspects, TB Contacts, etc. There will be no fees charged. Telephone No. 462 for reservations on approximately any hour during the compaign.

* * * * * * * * * * * * * * * * * * *

During and for a time after a flood, the risk of water-born disease is increased. Boil your water before drinking it until you are assured that it is safe. Have yourself and the family vaccinated against typhoid and the paratyphoids. See your physician about it or come to the Health Unit.

张 * * * * * * * * * * * * * * * * * *

This is the month - par excellence - for eating vegetables. They seem to taste best in May. When eating young onions, do not reject the tops - the top is probably the most useful part. They make excellent soup for babies - promote the making of Vitamin B. Green peas and lettuce are good and pleasant to eat. Green beans are good and all "greens" are wholesome.

Dr. F. C. Allen University of Kansas Lawrence, Kansas

Dear Dr. Allen:

I am attaching a clipping from The Villager, the community newspaper published by the Sunflower Village group.

I thought that the three items relative to the recreational efforts in the village and the program to be held at the University would be of interest to you.

I appreciated the time which you gave to the village group last week and also the additional interest on your part in coming out to the village to go over their recreational work with them.

With very kindest regards, I am

7 to 9 p. m.—Senior Girl Scouts meet in the North Room.

Tuesday

2 to 4 p. m.—Catholic Women's meeting in the Dining Room. 9:30 a. m. to 4 p. m.—Grade School music in the Community Hall.

4 to 4:45 p. m.--Junior Commandos meet in the Community Hall. 4:15 p. m.—Girl Scout Patrol.

7 to 8:30 p. m.—Choir practice in the Community Hall.

Wednesday

4:15 p. m.—Girl Scout Patrol. Evening set aside as church night.

Thursday

225 Lane N — Surgical Dressings from 10 a. m. to 5 p. m. and 7 to 9 p. m.

4 to 5 p. m.—Brownies in the Community Hall.

7 p. m.—Boy Scouts in the library. 7 p. m.—Orchestra Rehearsal under the direction of Mr. Haugh at the school building.

Friday

Open for Villagers

ANNE LIVINGSTON

6:30 p. m.—Brownie Troop No. 5, leaders will come from," says Anne "You never know where good Livingston, Recreation Training Specialist of the National Recreation Association, who will arrive VILLAGE RECREATION Leadership Institute for all individuals interested in recreation, both professional and volunteer.

Summer Sports Being Planned

At a meeting of the Sunflower Athletic Association in the Community Building, April 17, ways and means of providing sports and amusements for the Villagers this summer were discussed. James Drake, Mrs. George Miller, Ray Coulson, Mrs. Wayne Sellers, Wally Helm and Charles Hagen were selected as a committee to confer with the housing manager, Ira Nuzum and tenant aide, Margaret Ford, regarding the assistance that could be expected from the FPHA.

At this conference the committee was asked to list the equipment that would be needed and the space required for the installation of the playing fields. These requirements have been placed in the hands of the FPHA Regional Office in Kansas City and immediate action is expected.

Among other things the committee's plans call for two baseball diamonds and one tennis court and bleacher space to accommodate about three hundred.

PLANS BEING FORMED

4 p. m.—Intermediate Girl Scouts.

Saturday

10 a. m.—Catechetical class in the library.

1 to 5 p. m. and 7 to 9 p. m.—Catholic priest in north room for consultation and confession.

6:30 p. m.—Scouts Folk Dancing, Auditorium.

Sunday

6 a. m. — Catholic Mass, games room.

8 to 8:55 a. m.—Confessions heard. a. m. — Catholic Mass in the games room.

9 a. m.—Protestant church services in the Community Hall.

9:45 a. m.—Church school classes in the Community Hall, library, dining room and Child Service building.

1 p. m.—Games room opens.

2 to 3 p. m.—Catholic Confessions.

May 2—Teen Age Party for Mothers.

April 28—Cub Pack.

Girl Scout Committee meeting, last Monday of each month at 7:30 p. m.

Wives of Guards meeting second Tuesday of each month.

Sunflower Sisters Society meets each second and fourth Tuesday at 2 p. m.

Teachers and officers of the church school meet the second Wednesday of each month.

"Many restless youth who may be Experts in sports activities from considered predelinquents have ex- the University of Kansas were in standing adult leader. Much delin- Dr. Forest C. If recreation member of the University coachple obtain some of the security, the Ford and Ira Nuzum on a tour of and the thrills which they now lack, were surveyed. many will become useful citizens.

"We must, however, find these restless, alert children when they are young and train them in as club leaders, monitors, junior leaders, and members of such groups as youth councils. Sometimes the shy child has unexpected leadership abilities but doesn't know it. It is the leader's job to help these young people develop confidence in themselves and put their abilities to work for the benefit of all," continues Mrs. Livingston, who will devote part of each session at the Recreation Leadership Training Institute to be held in the Robinson gym, to leadership methods and ways of organizing and using junior and senior councils, leaders' clubs, and volunteers.

Anne Livingston, herself a recreation leader of long experience, has for the past seven years trained hundreds of professional and volunteer recreation leaders in institute courses, most recently in connection with the servicemen's center at Miami Beach, Florida, the third largest in the country.

The local institute is sponsored jointly by the National Recreation Association and the University of Kansas. Classes will be held from 6 p. m. to 10 p. m., except Saturday, the last day of the institute, when the time will be divided. Classes will be from 10 a. m. until noon and from 2 until 4 p. m. All who are interested in recreation training are urged to register early with Margaret Ford at her office in the Administration Building.

> Dr. Allen intends to make an analysis of the needs of the various aged children in the Village and draw up a plan for location of playground equipment and suggest ways and means of supervised play. This plan when completed will be presented to the members of the Athletic Association of the Village who in turn will consult with the Regional Office of the FPHA.

> Among the many facilities for recreation suggested by the visitors from Kansas University were, soft ball diamonds, tennis courts, picnic ovens, sand boxes and additional play equipment for smaller children. A suggestion was advanced that the space behind the stores could be surfaced and used as tennis courts and also for an outside meeting place for parties, picnics and dances.

ERECTS SIGN BOARD FOR ROLL OF HONOR

An attractive sign board has been erected at the south end of the Guard Headquarters building, at the plant, to be used for a roll of honor. The board is attractively built and painted in the National colors. It is on a terrace where plans call for flowers to be planted.

The names of those in the armed forces will be enscrolled upon the board at once, and names of those who leave from time to time will be added. No accurate estimate of the number of names could be obtained.

Mr. V. C. Hurt, President, Philbrook Art Center, 2727 South Rockford Road, Tulsa 5, Oklahoma.

Dear Vic:

It was very generous of you and Mrs. Hurt to ask the Allens to visit you in Tulsa. I am not sure whether Mrs. Allen will be in these parts at that time or not because her children are scattered all over the country and she gets pretty lonesome for them.

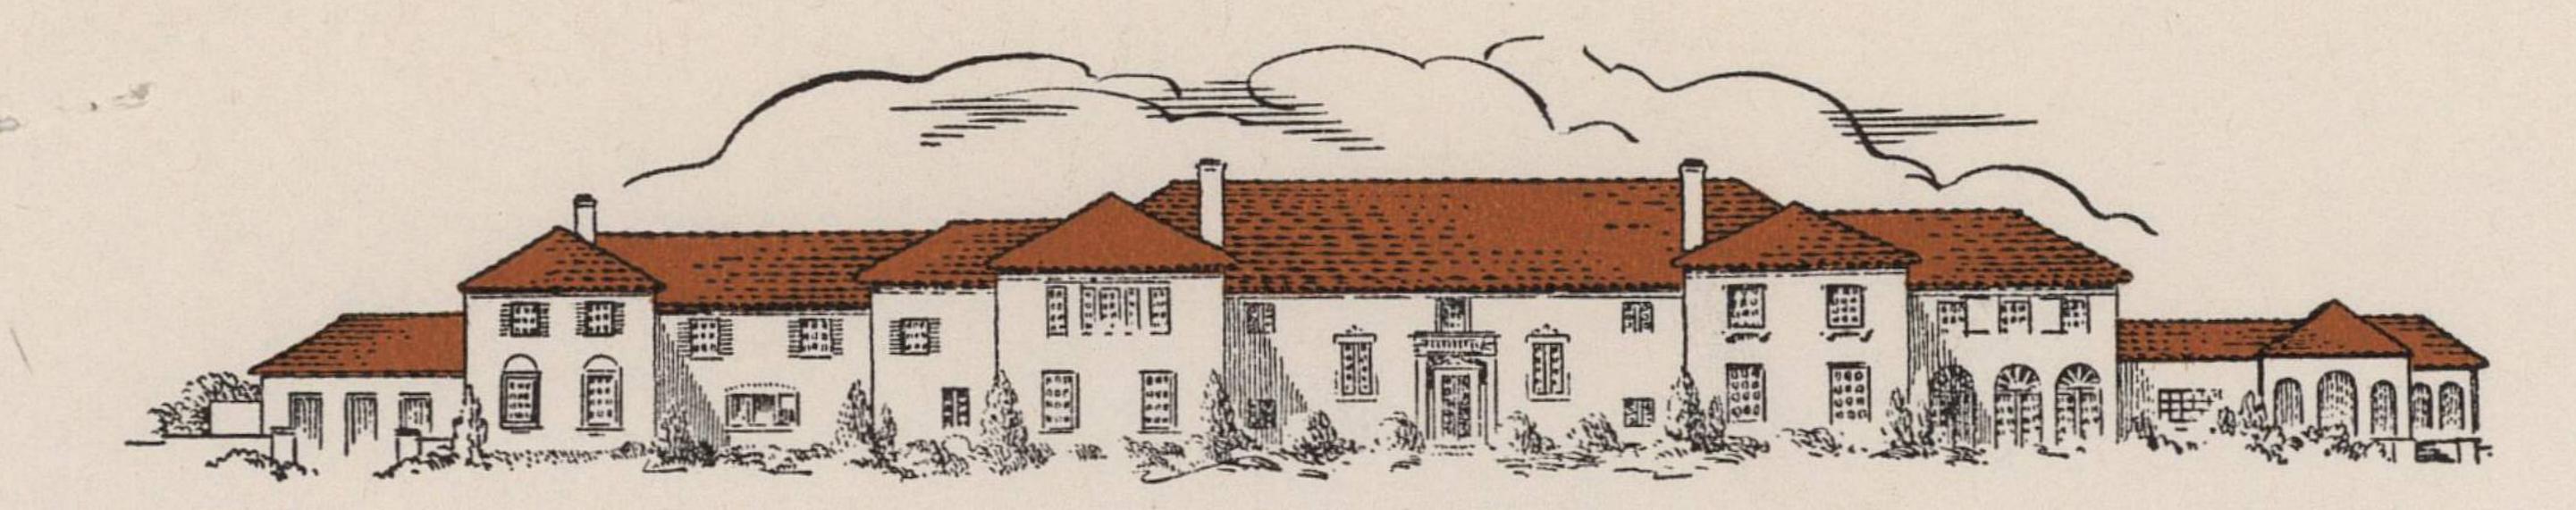

Bobby is graduating at the University of Pennsylvania in early September and since Eleanor lives just twenty miles from Philadelphia, I wouldn't be a bit surprised to see her take a trip back east.

However, I want you to know that we appreciate it, and if and when we are in Tulsa we will not forget the pleasure of saying hello to you and your fine family.

With all good wishes, I am

Sincerely yours,

Director of Physical Education, Varsity Basketball Coach.

HERCULES POWDER COMPANY

SUNFLOWER ORDNANCE WORKS

LAWRENCE, KANSAS

April 7, 1944

Dr. F. C. Allen University of Kansas Lawrence, Kansas

Dear Dr. Allen:

The officials of Sunflower Village are desirous of setting up an adequate recreational program which will cover approximately 300 children of grade school age and 45 children of high school age. They are in need of assistance both in setting up and supervising the program and also in the selection and purchase of equipment to be used.

It is my understanding that an ample appropriation is available to cover these purchases and that the authorities are urging that they not delay longer. With their lack of knowledge of a project of this kind it is their desire to call upon you for any and all assistance which you can see your way clear to lend.

A program of this kind at Sunflower Village is very desirable in that it is of benefit to the children themselves, and in addition, with the plant operating on a three shift basis so that parents must sleep at odd hours, these children must be adequately supervised away from home.

It is the thought of the village authorities that there are pupils in your department who might devote time to the operating of this program and obtain some credit toward their class work as well as obtain practical experience.

However, before this possibility can be discussed it will be appreciated if you can find it possible to survey this project in detail and give the Sunflower Village group the benefit of your experience in this work.

The village officials are desirous of meeting with you at your office, and if you will 'phone me as to a convenient time I will be glad to arrange with them accordingly.

Thanking you for your courtesy, we are

Very truly yours

A. B. Hamilton Barracks Supt.

UNIVERSITY OF KANSAS LAWRENCE

DEPARTMENT OF PHYSICAL EDUCATION

April, 27.1944 Lawrence, Kansas.

Dr. F.C. Allen,
Director of Physical Education,
Kansas University,
Lawrence, Kansas:

Dear Dr. Allen;

Failing to see you personally, I wish to make formal apology for not attending the ASTP luncheon, Tuesday, April, 25, 1944.

I assure you that I considered it an honor to have been delegated to attend and that I will do my utmost to carry out my promises in the future.

A few days before we expect a new member in our family, I always seem to be floating around in mid-air without my head, although the Mother at this time is doing nicely.

Yours Truly,

vgh

Vernon & Hayes

Mr. and Mrs. R. T. Hansen, 7310 Olive, Mansas City 5, Missouri.

Dear Mr. and Mrs. Hansen:

It was good to see Mr. Hansen at the banquet and to know that he still retains his exceptional interest in youth. The fast that he asked to take a boy along as a son shows that he is vitally interested even though he could not have either Edward or Stan there.

I am sending you a Jayhawk Rebounds and am also putting Stan and Edward on the mailing list along with the Hansen family.

I trust that you both are in the best of health, and I sincerely hope that the breaks will come to Edward and Stan so they will both be returned safe and sound after this holocaust is over.

With all good wishes, I am

Sincerely yours,

Director of Physical Education, Varsity Basketball Coach.

FCA:AH

Mr. R. L. Holcomb, Assistant Director, Kansas City Police Academy, Kansas City, Missouri.

Dear Mr. Holoomb:

Your letter addressed to the Student Placement Service of the University of Kansas has been referred to our office for reply.

I regret to advise you that we do not have a young man at the present time who would fit into your scheme of things. The Army and Navy have placed such an emphasis upon physical conditioning that high schools and colleges are drained of these young men. If, however, someone should come to us that we could recommend we would be very happy to write you.

Very sincerely yours,

Director of Physical Education, Varsity Basketball Coach.

FCA:AH

BOARD OF POLICE COMMISSIONERS

KANSAS CITY, MISSOURI

RICHARD R. FOSTER

April 3, 1944

Student Placement Service University of Kansas Lawrence, Kansas

Gentlemen:

The Kansas City, Missouri Police Department has a vacancy in the position of Physical Director. This position would require someone with experience in physical conditioning, wrestling, boxing, weight lifting, etc. There is very little competitive activity, such as basketball, baseball or tennis.

We do not require, nor do we hope to be able to secure, a college graduate at the salary we are offering, as a starting salary would be about \$150.00 per month.

However, we thought that you might be able to suggest someone for such a position.

I will appreciate any assistance you might be able to give us.

Sincerely,

RLH: jb

R. L. Holcomb, Ass't. Director Kansas City Police Academy

A. Plan:

- 1. To make a constructive study of present health practices of the people under expert guidance; to think and plan together; to pool experiences; to set up policies, standards, desirable procedures with illustrations, relative to what really is needed in our schools and communities to promote everyday healthful living.
- 2. A close relationship between public health and public education is most important.
 - (a) Out of this study, it is hoped will come specific recommendations which can be put into effect for the benefit of the Kansas school children, teachers and citizens in every community.
 - (b) Two reports will be prepared—one for the college faculties and one for the public school administrators. (After a careful study of these reports it is believed that college faculties and school administrators will challenge, inspire and help classroom teachers to build flexible, practical programs to meet individual needs in schools and communities—in brief, strong local health programs should be an outgrowth of these reports—programs that will function in the normal physical, mental, emotional development of the boys and girls of Kansas.
 - (c) The reports or manuscripts will not be essay type documents but clear concise statements of what health programs and policies should be and suggestive long-time policies and desirable procedures.
 - (d) Reports are prepared jointly by leading educators, specialists in health education and interested qualified lay citizens.

3. Committees:

- (a) Central -- A large joint committee of educational and health leaders to help plan the study, to evaluate procedures and final draft.
- (b) Liaison--Small group to coordinate efforts, to keep continuity of thinking, etc.
- (c) Sub-committees (ten) a product of central committee. (It is well to have students represented on this committee.) These sub-committees write on various problems or make basic statements, which in turn are studied by the liaison committee, further discussed and evaluated by central committee and edited under Dr. Turner's guidance.

- 2 -

(a) The underlying principles relative to administration, educational procedures, and cooperative relationships

(b) The specific objectives sought in terms of the pupils' habit-formations, attitudes, behavior, and knowledge

(c) The provision and maintenance of a healthful school environment, both under urban and under rural conditions (water supply, sanitary drinking facilities, toilet facilities, waste disposal, lunch facilities, heating, lighting, cloakrooms, etc.)

(d) The whole question of school health services, as such (by health examinations, follow-up, health records, communicable disease control, safety, first aid, provision for the hand-

icapped child)

(e) The routine health procedures in the classroom, and the organization of the school day in the interest of the mental and physical health of the pupil (teacher-pupil relations, home ork assignments, examinations, discipline, sequence of subjects, length of class periods, weighing and measuring, plannod relaxation, rest periods as needed, the school lunch, the morning health review with follow-up through the day, recess periods, etc.)

(f) The health of the teacher (by preliminary examinations, health supervision while in service, sick leave, tenure, periodic

x-ray, etc.)

2. In the Teacher Training Field:

(a) Student health service

(b) The hygienic regime of the student's day in daily program hours of work, living conditions, rest periods, recreation, etc.

- (c) Health instruction, including instruction in health education methods, both academically and in the course of practice teaching (by instruction in health subject matter, instruction in health education methods, in physical education, practice teaching in health in the laboratory school, teacher instruction in detecting the abnormalities of individual pupils for referral to health specialists, the contribution of other subjects to the health education of the in-training)
- (d) In-service training through health education workshops, institutes, extension courses, summer courses, etc.

C. Suggested Dates for Committees to Meet:

- 1. November 1944
- 2. January 1945
- 3. February 1945
- 4. May 1945

DENVER

HUNTINGTON LABORATORIES, INC. SANITATION PRODUCTS

HUNTINGTON, IND.

February Ist. 1944.

Forrest C. Allen, % University of Kansas, Lawrence, Kansas.

My dear Mr. Allen:

First of all permit me to congratulate you on the fact that our committee on selections picked one of your articles for inclusion in the I944 issue of our Seal-O-San Basketball Coaches Digest. Knowing as I do the extent to which this committee goes in its search for articles of quality on the subject of basketball, I know that any man can feel highly complimented when one of his is chosen.

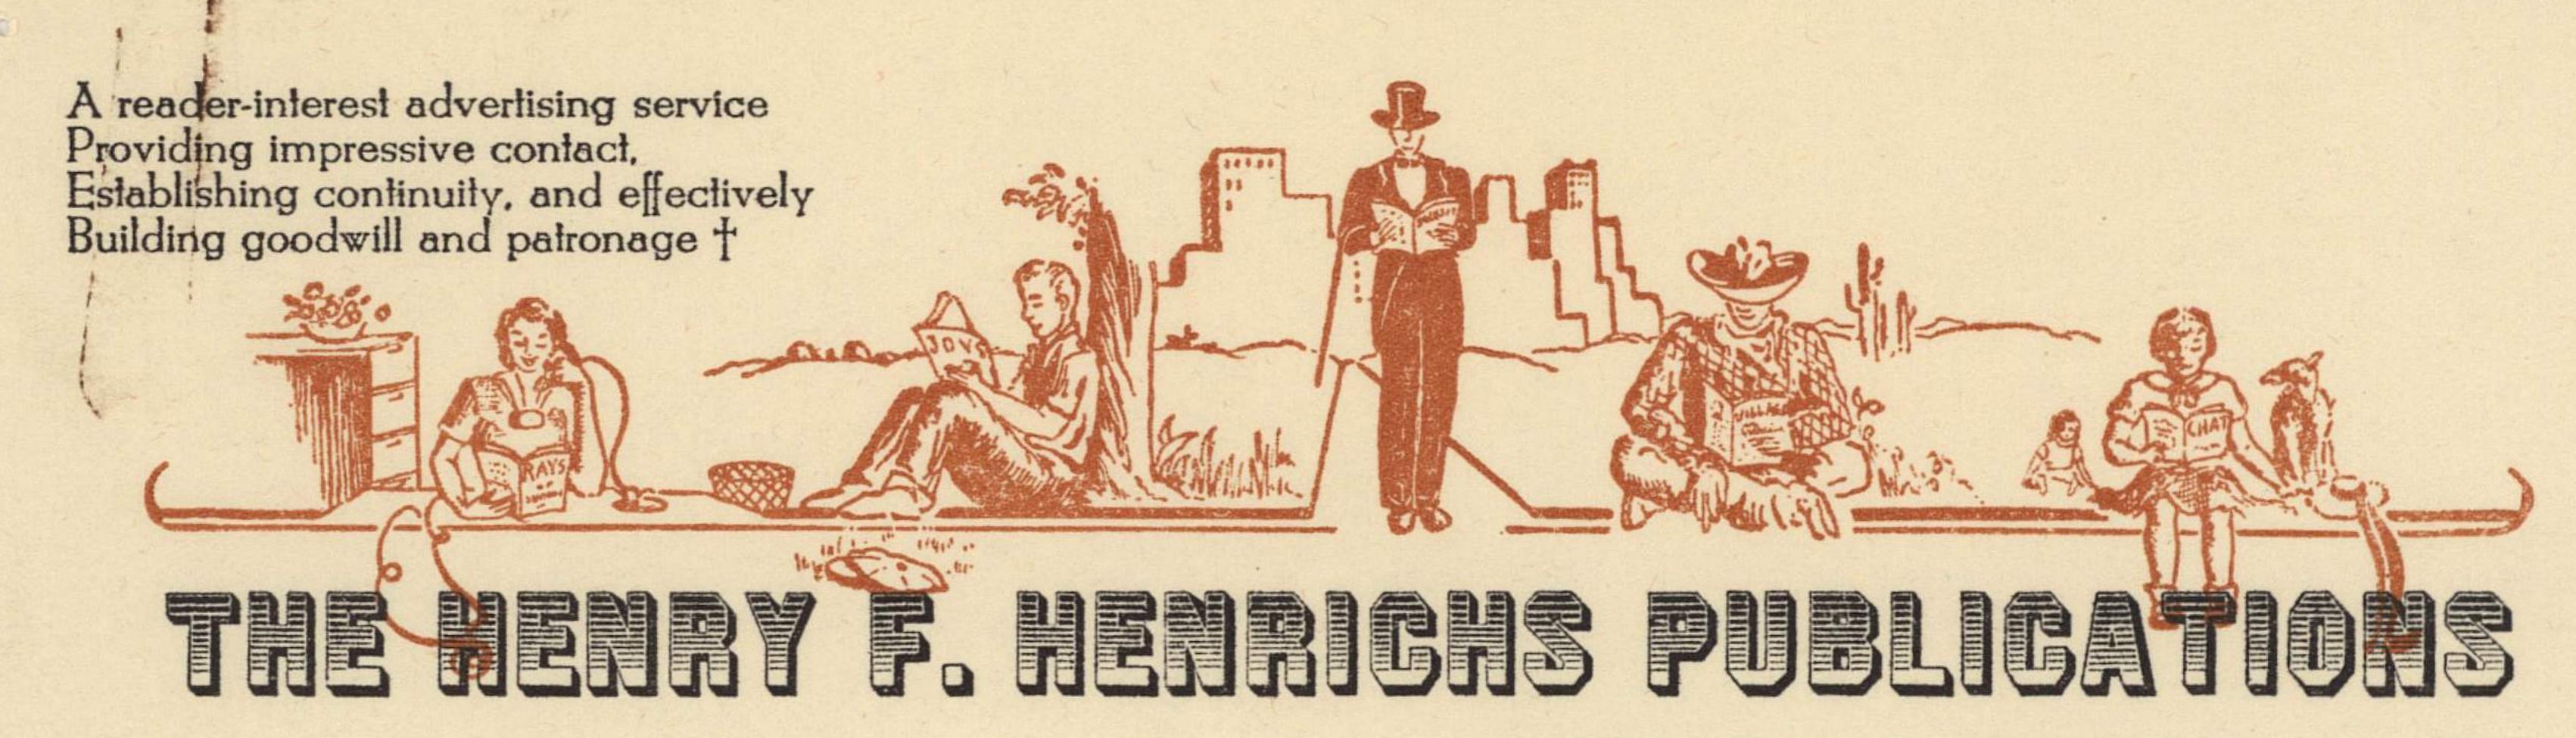

Secondly, I want to personally thank you for your gracious permission to use your article in our case and to express the hope that we may in some way in the future be able to reciprocate this favor. In the meantime I'm sending you a copy of the Digest for your files and should you desire any additional ones for any purpose, please don't hesitate to call on me.

With kindest personal regards and best wishes, remain

Yours sincerely, Huntington Laboratories, Inc.

President.

J.L. Brenn,

March 2, 1944

LITCHFIELD, ILLINOIS

Dear Friend Phog:

It was mighty nice of you to write me in response to the letter I had sent you a few weeks before Christmas, concerning one of our special booklets that I thought would make a nice Holiday remembrance to your fellow Rotarians.

I am sure the framed membership plaque, which you presented to your members, was received with real appreciation.

Perhaps the situation for next year won't be the same, if your club changes its presidents annually, as most Rotary Clubs do. However, there might still be an opportunity for you to use one of our booklet numbers as a unique greeting to many of your friends, and if you are interested in looking over some of our material, I will be happy to send you some specimen copies.

It seems that your name gets into the papers once in a while, and I was interested in reading the "U P" report this past month from Kansas City outlining some of your ideas for basketball rule changes. The "NEA" published a shot of you with two of your players, Barrington and Dick, and I saw this just one day last week in the Illinois State Journal from Springfield.

I have been a keen basketball fan since my days in high school and college, and can appreciate the fine leadership you are giving not only to the Kansas University team, but to basketball generally.

I hope that some day we may have the pleasure of having you visit us here at the House of Sunshine in Litchfield.

MARCH 15, 1944 XMARCH KXXXXXXXX

DEAR DOC:

Somewhere in India I JUST READ MY LATEST COPY OF JAYHAWK REBOUNDS A COULLE OF DAYS AGO. THAT IS ONE PIECE OF NEWS I REALLY APPRECIATE. OF COURSE ALBERTA KEEPS ME PRETTY WELL POSTED AS TO UNIVERSITY AFFAIRS, BUT SHE SKIPS SO MUCH THAT IS NOT QUITE SO PERSONAL. I SUPPOSE THAT EVERY LETTER YOU GET FROM ANY OF US PRAISES THE REBOUNDS, BUT I FEEL THAT MY TWO CENTS WORTH MUST COME ALONG ALSO. NOW THAT I'VE READ THIS ONE I'LL START LOKING FOR THE NEXT CHE.

I HEAR THAT YOUR BOYS TOOK THIRD PLACE THIS YEAR. WE ARE FAR FROM ASHAMED OF THE SHOWING, DOC. OF COURSE YOU REALIZE THAT WE ARE USED TO A CHAMPION-SHIP, BUT ONCE IN A WHILE WE ARE CONTENT TO LET ONE OF THE OTHER SCHOOLS OCCUPY THE TOP SEAT. ONE OF THESE DAYS THIS WHO E MESS WILL BW OVER, AND YOU CAN DEPEND ON KEEPING A TEAM TOGETHER ALL SEASON WITHOUT LOSING A LOT OF IMPORTANT COGS TO THE ARMY OR NAVY. NOT THAT WE CAN BEGRUDGE GOOD MEN TO THE SERVICES, BUT WE ALL WANT THE WAR OVER. I FOR ONE WILL BE DARNED GLAD WHEN I CAN GO TO A GOOD BASKETBALL GAME AT LAWRENCE AGAIN.

I GUESS THAT ALBERTA HAD QUITE A SIEGE OF SICKNESS THIS PAST WINTER. I REALIZE THAT SHE DON'T KNOW WHEN TO QUIT AND TAKE A REST, EUT AM GLAD TO KNOW THAT SHE IS WORKING WHERE SHE IS A FRIEND AS WELL AS A SECRETARY. I'LL BE GLAD, , , FOR MY SAKE AND HERS, , , WHEN YOU HAVE TO START LOOKING FOR A NEW ONE, SECRETRY I MEAN. AS SUON AS I GET BACK TO WORK IN THE POST OFFICE SHE WILL HAVE A FULL TIME JOB LOOKING AFTER OUR HOME.

AS YOU CAN SEE I HAVE DONE QUITE A BIT OF TRAVELLING SINCE I WROTE WOU LAST. WE KANSAS BOYS SEEM TO GET AROUND. EACH TRIP MEANS THAT IT WILL BE THAT MUCH LESS TIME TILL I CAN START BACK TO LAWRENCE. THIS IS A NICE OLD WORLD, AND I APPRECIATE THE CHANCE TO SEE SO MUCH OF IT, BUT YOU CAN BET I'LL BE HAPPY TO SEE MT. OREAD AGAIN.

I PLAYED SOME GOLF A WEEK OR SO AGO. THE SCORE WASN'T ANYTHING TO WRITE HOME ABOUT, BUT WE HAD SOME REAL FUN, AND LAUGHS. THE BIGGEST LAUGH COMES FROM A GROUND RULE, --- "WHENEVER A BALL IS IN FRESH COW DUNG, OR IN SUCH A PLACE THAT IT BECOMES NECESSARY TO STAND IN FRESH COW DUNG TO PLAY IT; THE BALL MAY BE DECLARED UNPLAYABLE, AND RAISED WITHOUT PENALTY" . BOY NOW ISN'T THAT ONE FOR THE BOOKS? THE COURSE IS VERY NICE AND I'LL ALWAYS BE ABLE TO SAY THAT I'VE PLAYED IN INDIA.

YOU SEEM TO HAVE TAKEN ON A LOT OF VERY IMPORTANT JOBS, BUT I KNOW THAT EACH ONE OF THEM WILL RECEIVE ALL THE ATTENTION THAT IS NECESSARY TO GET THE JOB DONE WELL. TAKE GOOD CARE OF YOURSELF, DOC, THERE ARE A LOT OF US WHO WANT OUR SONS TO HAVE THE PRIVILEIGE OF BEING YOUR BOYS THE WAY THEIR DADS ARE. WE WHO ARE SO FORTUNATE AS TO CONSIDER OURSELVES AS DOC'S BOYS" WANT THAT SA

PRIVILEGE FOR OUR SONS. seepher rebounds

know how greatly I appreciate receiving your February "Jayhawk Rebound " along with the rest, at gave me much satisfatie to learn the whereabout of some of Kto great althetes and what they were doing in the Service. Although I never actively engaged in any warsity althouse at Hanse, I have always been witally interested in Our Feams and followed their activities continously; all the while hoping that I could be in there doing my small part do a result, it gave me a thvill to be counted in on this distribution of your eventimenting

He latter. Angel Island which is very close to San Francisco (also Alcatraz); Consequently, I get to see many of the games played there. Sast week I saw a very intensting battle between John Guiette and Jim Palland. The "Sreat Hank" came out on top with a scart thirty two points. John Dunn was one aftile afficials for the game. In talking to him, he told me much about Thusetti. Indeed, he is a great team-player as well. Your fried (and everyones), Rope Englisa, ervas listed on the lineup, but as you know, he is out-to-sea performing another lash right now.

Doctor, if you know of any of the K.U. men gøing sverses westward, please let me know because di stationed at the last processing station for all troops going westward. I surely would like to have the apportunity to meet and see again any of Mus men. Please give my best regards A Mr. Shenk and best wishes always to you and your bays. Herry sincely yours, Dub Hartly

Dear Du. Gelen.

I just received my issue of Rebounds and I want to thank you very much. I certainly do enjing them and reading about all the fellows. I lave bun meaning to write you for some time but you know how some people are about letter writing. & think if I were in a little more active line of service my litture would be more plintiful. However, being an instructor does not afford.

exciting news to write home about. I am now nothing my third class of adults. & still like my work fairly well and I do enjoy working with the cadets and trying. to teach them the different between an aigsland and a tractor! And if my bays complained because the throttle on the augsland worked just bockwards to the one on his Dado tractor! & have been following your games quite clasely and wishing your buck all the times. I parky Midpadden

is about the only bay of remember so d'an su that you must bave a team of freshmen. I think they have done dann well to win the games they have. Til bit much year will be an entirely diffarent story if your have these bays bock. I sure do scan the fores of every new class that comes here, bapaing to fend anatker Fansas wan. of gains 6 harley Black in now flying A. Ts. I know he will make the guadle in fine style.

I hope this letter finds you and mus allen in the best of health. I am looking forward to the day Hawrence and pay your a visit. Thanks again for the Kebounds. Dineely Yours Mr. Vance Hall, Instructor, AAFFTD, Blythe, California.

Dear Vance:

I will have just a moment this morning to say hello to you this morning and tell you that I very much enjoyed your letter of the 27th ultimo. I hope you can find time to come back to Lawrence some day and pay us a visit. I am glad you like the Rebounds.

when he complained because the throttle on the airplane worked just backwards to the one on his dad's tractor. We will use that in our next Rebounds. As chairman of the 1944 Red Cross War Fund drive for Douglas County, we have just gone over the top and we are feeling pretty good over that, but there are other things to do, so we will move forward on the next prospect.

With all good wishes to you and yours, I am

Very sincerely yours,

Director of Physical Education, Varsity Basketball Coach.
