

June 4, 1945.

Pfc. O. L. Eaton,  
Ft. Leavenworth, Kansas.

Dear Private Eaton:

This is evidence that you "carried the mail"  
properly.

I am sorry that I did not recognize you offhand  
when you came in the office, and I trust it will not be  
a bit embarrassing to you if I should suggest that your  
equatorial diameter has increased slightly and the adipose  
tissues around your jugular vein have accentuated noticeably.  
Can you make me believe that the Army is strenuous for a  
Pfc?

I am sending you a Jayhawk Rebounds, a monthly  
letter to our boys in the service.

Sincerely yours in Phi Delta Kappa,

FCA:AH  
Enc.

Director of Physical Education,  
Varsity Basketball Coach.
