Mr. Arthur F. Hughes,
Sports Editor,
St. Joseph Gazette,
St. Joseph, Mo.

Dear Arthur:

Your letter of May 19th came to me regarding the football schedule for K. U. for next fall. Henry Shenk will coach the football team but he is making no commitments until he knows what sort of material he will have. These boys are going to be mighty young here at the University and he really has now a heavier schedule than the material will reasonably justify.

However, when school opens I believe will be as soon as Henry will make any commitments. You might write him at your convenience.

We have not made our basketball schedule, and very little has been done definitely toward athletics here at the University. This campus is getting to be a war college like all others, and the winning of the war is, in our opinion, the most vital thing. Somehow I cannot get too pepped up over college athletics except as they provide the boys with enough toughening to get them in shape for the mortal combat in which they are very apt to be thrown. However, I do believe that we will have some form of competitive athletics, but nobody will take them very seriously until the war is over.

I am not worrying about civilian morale because they can get their recreation from the theater and from professional teams, and the boys who are studying and getting ready to soldier will get quite a bit of it in military camps when they get in. However, I am sure that all of us will want to do our bit toward competing with the sailors and soldiers when and if our schedule works out satisfactorily.

Very sincerely yours,

FCA:AH

Dear Phog;

I don't know who is making up the football schedule at K.U., for next fall but you might tell him that the Rosecrans Field Flyers will be playing football and are looking for games. Right now it looks like a good grade college team but there is no telling what may happen later. You may remember the Flyers lost their three best basketball players the week they were to play you. I believe that they will be better in football and basketball, too, this coming season. Anything you can do to help the boys get games will be appreciated.

Yours sincerely

To Whom It May Concern:

I am very happy to recommend for your consideration Lacy Haynes, Jr., a student at the University of Kansas for the past three years. Lacy Haynes would have graduated this year but he was very anxious indeed to do his bit in the service, so he left along with our early volunteers.

I have known this young man intimately for several years past and know him to be a highly intelligent, aggressive and personable young man. His character is above reproach. He assisted me with my varsity basketball team in a number of ways. He was most cooperative and loyal in every contact that he made with us.

While small of stature he made up for this slight physical deficiency by his boundless enthusiasm and dynamic energy. He has a unique way of getting along with people. He likes them, and he has the ability to get the job done. He is a fine gentleman and very dependable.

Lacy Haynes is clean of mind and body, and is of the fighter type in that he never quits a job until it is finished. I would recommend him without reservation or evasion as possible officer material.

He was one of the prime leaders in his fraternity organization. As Director of the Department of Physical Education, we supervised the intramural athletics. It was he who constantly was endeavoring to improve the public relationships of his fraternity in regard to the other group organizations with whom his fraternity competed. Many problems arose and it was he along with a few other leaders who endeavored to work them out. He was popular with his fellows in the University, which is, after all, an indication that he possesses high qualities of leadership.

Very cordially yours,

Director of Physical Education,
Varsity Basketball Coach.

Dear Mr. Hunt:

Thank you very much for your good letter of the 14th instant enclosing your photograph and giving me information that you would be available until August 5th, at which time you will report to Chapel Hill.

Congratulations on your Navy assignment. I am sure that you will do a very fine job and we wish you every success.

We have recently acquired the services of Ray Kanehl, of Wichita East High School, who will report to us July 1, and will be with us for the duration.

For the short while that you would be available to us we do not consider that we have an emergency existing here that would call for your very fine services. I do thank you, however, for writing me. We have our swimming and life saving under control. We have a lieutenant and two chief specialists in the Navy who will help us with our work.

I am returning your photograph for your use.

Wishing you much success at Chapel Hill, I am

Dear Dr. Allen:

This letter is being written on the chance that there might be a need for another instructor in your department for the summer session.

I have recently been commissioned as a physical instructor in the Navy and have just been informed that I will not be called to active duty until August 5th. Having established my family in Emporia for the duration, I am interested in obtaining employment until time to report to Chapel Hill.

My qualifications included a Master's degree from the University of Iowa in addition to twelve years experience in teaching and administration in physical education. I hold a water safety instructor's rating in the Red Cross and have had extensive experience in teaching all forms of swimming and lifesaving. Henry Shenk can furnish you with any information you might wish regarding personal qualifications.

Should you decide favorably on this application, I can be reached at my Emporia address which is:

Dear Sir:

Thanks for your kind letter of June 1, enclosing
you address.

I agree heartily with everything you have to say.

Some months ago, I tried to persuade the University
and The Citadel, where I went to college and played on
both teams, to undertake just about this procedure, but
have gotten no where with the University, although The
Citadel is highly in favor of it.

I am, at this time, President of the Alumni

seeing that athletics are brought back to the student

shock to revise it here.

NAVY DEPARTMENT
WASHINGTON

Dear Doc.

I was more than glad to receive your letter the other day and want to apologize right now for not having answered soon but you know how those things go. I also want to thank you for the offer to write the letter for me and to tell you that you should know that the first person I would ask for a letter would be that rotten basketball coach at the old State U.

There is nothing new going on in this place at the present time. The only thing that we have released of interest lately is the Attu landing and fighting and somehow I can't get very worked up over that. It seems a little slow to me. Everything else on the Navy is quiet right now.

I got a letter from Chuck Elliott yesterday and he seems to be doing okay. He is now in Texas as you probably know. From the way his letter sounded he is really interested in the work he is doing.

I am going to have to cut this short for I have to go in and check the tickers (AP,UP,INS,FCC) and see if there is anything on them that we should know about here. One of those things that someone has to do and it looks like I am elected as I am on by myself.

Again I want to thank you for the offer of the letter and assure you that you will be the first one that I call on if I need some help.

Tell all of the Allen family ~~hello~~ hello for me and give them my best.

Mr. F. D. Holland, Jr.,

Dear Buddy:

This is simply a friendly letter written in the hope that we may clarify some of your duties as supervisor in charge of the towel room.

As you know, it was disappointing to come up to the meeting last night and find only three of the boys present. It would have been much better if you had written a short note to each boy, instead of merely posting a sign. A note would have personalized the fact that you wanted each individual present, and I believe the boys would have made a greater effort to be there.

Hereafter we must make it our policy to penalize each boy who does not show up. We did this last semester, and it is the best way to make a boy realize that he is losing 70¢ by not being there, instead of making 35¢ for the hour that he attends the meeting.

Another suggestion I have is that you as supervisor should have taken care of the windows in the towel and basket room, seeing to it that there is plenty of ventilation through there. Don't depend on the boys to open the windows. We have asked the Buildings and Grounds men to work on the windows so there should be no difficulty in getting them open.

Remember, any time you can't get anything done report to the office, and that is the time we will act.

Cordially yours,

Director of Physical Education,

Dear Bob:

I was indeed happy to hear from you. I saw John Brand at the Country Club yesterday and he told me you had written him.

Not very long ago Mrs. Smith, mother of "Rip" Smith, told me that she had a stopwatch which had belonged to her husband who had used it to time horses, and now that she no longer had any use for it she wanted to sell it to me. Ever since I got your letter that was in the back of my mind, but I couldn't think of her name. It occurred to me this morning and I called her.

People are always trying to sell me something, from therapeutic lamps to scales. There was one fellow who had a therapeutic lamp for his wife who died of cancer, and he wanted to trade me the lamp for a couple of season tickets so he could take his girl to the football and basketball games.

Mrs. Smith is taking the stopwatch to Makepeace to have it appraised. Then I called John Brand and told him what I had done. I also called Mr. Rankin and had a nice visit with him.

I am sending you a copy of a mimeographed letter we sent to some of our boys in the service. You may be interested in some of their activities.

With kindest regards, I am

Sincerely,

Dear Phog;

Thanks for giving Kansas another great basketball team. I was as nervous over the outcome of the games as if I were on the sidelines. During the season I was ashore, teaching navigation at the U S Maritime Officers School in Alameda. Recently I joined this vessel and will be at sea for a spell.

Do you have any spare stop-watches gathering dust around your home or desk? If so I'd like very much to buy one. They are impossible to purchase out on this coast, and ships and navigators need them badly. If you do have one for sale, just box it up and send it to me at;

Congratulations, too, on the Red Cross drive. It seems strange not to be the sharing the responsibility of the many civic projects of Lawrence.

I trust that you enjoyed the letter to the boys in the service and will use that letter as an aid in lining up their addresses when you want to drop them a note. Another will be forthcoming in a few weeks now. We will have a lot of names to add to this one, and one will be Lacy Haynes, Jr.

I have kept your letter of January 22nd on my desk intending each day, week or month to answer the same. I have now finally gotten around to it and am sending these two letters back from the Chinese boys. I am sure that Mrs. Haas may want to keep them, if she is anything like my wife. Mrs. Allen goes all out on these things and I am sure that Mrs. Haas will keep these letters. So I am sending them to you for that purpose.

I have had a great deal of contact with Chinese boys and I think they are wonderful. You did a great service in taking these boys to the game and I would have enjoyed immensely meeting them.

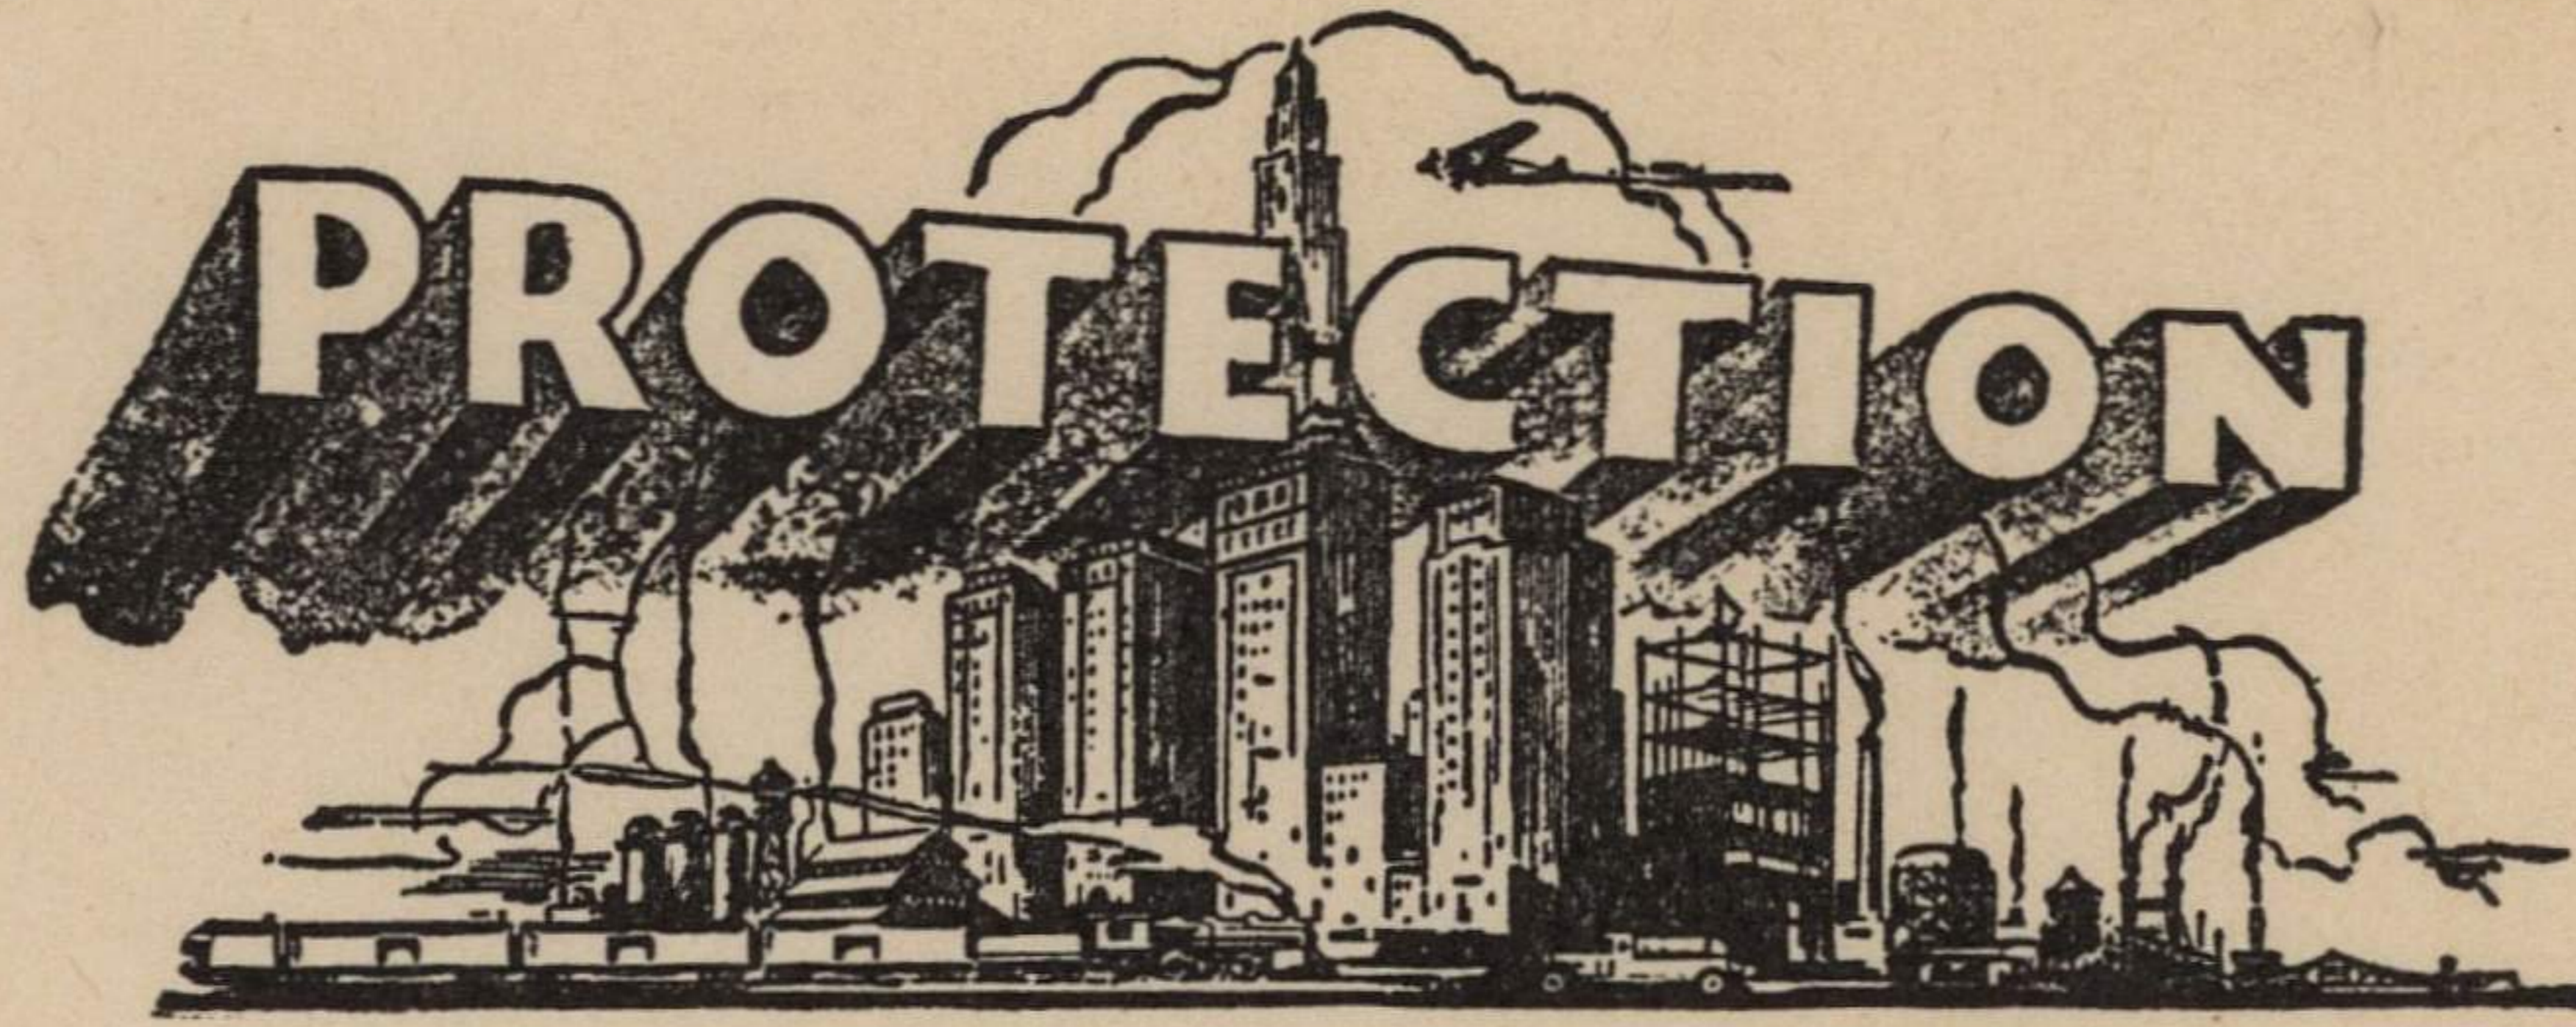

You know, Al, this old world is a pretty small place, after all, and if we do a kindness like this not only do we get a big thrill in doing it at the time, but many wonderful contacts are made in this way and no one knows when good things will come back to a fellow who does the decent thing.

Dr. F. C. Allen
Athletic Department
University of Kansas
Lawrence, Kansas

Dear "Phog":

I want to write and thank you for the tickets to the basketball game last Saturday night. I certainly don't want you to feel that I expect you to give me free tickets every time K.U. plays in Kansas City although I expect to go. However, I do appreciate it, and it is mighty nice of you to remember me.

An interesting thing happened in connection with the tickets Saturday night that I thought you would appreciate knowing about.

I asked Cal Morrow to tell you I would like to have four tickets, and, at the last minute, the couple with whom we were going couldn't go so we took the two extra tickets down to the Kansas City Canteen and asked the man in charge if a couple of soldiers would like to go to the basketball game. In a little while out came two Chinese boys, who are in the Air Corps. and stationed in Kansas City studying radio.

It seems as if these boys had played basketball in San Francisco. One of them was born in China; the other in California, and night after night they had been sitting around the Canteen with nothing to do and had been asked nowhere. Since they appeared to be very gentlemanly and intelligent, we took them right along with us and sat with them. As we became acquainted we got to feeling glad that we drew these boys as they were pretty lonesome and homesick and their appreciation of this little favor was really pathetic.

We took them for a ride after the game and bought them something to eat. This week we received a letter from each of the boys and a large potted plant was sent out to the house to Mrs. Haas. We are going to continue to keep in contact with them, and we are going to have them out to the house Sunday, so you see, you are responsible for this, and I thought you

-2- Dr. F. C. Allen

would get a kick out of it. I am enclosing the letters the boys sent to us.

It looks as if K. U. has a wonderful team this year, and I hope you are able to keep your team together and gain national recognition. I would say a National Championship, but I am afraid to mention it.

Wishing you the best of luck, and with kindest regards, I am

Lt. Myrl J. Hodson,

Muskogee, Oklahoma.

Dear Myrl and Jane:

I find that I have not answered your letter of April 18th, but I have just written to a gentleman down in Brazil who wrote me on December 14th, so you see I do get far behind in my correspondence.

The day I saw you good people I was in a rush to make three connections - Mr. McBride, Mr. Haynes and Mr. Reaves Peters, so you see I had a lot to do in an hour's time. I did not notice that I revealed my nervousness, but you people were going some place, as I recall, on short notice, so it was just one of those hello and goodby salutations. I have been accused by a number of people that I put out the nervous sign when I am in a hurry. But don't we all?

I notice where the 88th division was called on the alert. I remember pretty distinctly one September night about ten o'clock we were called out at Camp Sheridan and marched ten miles just because the colonel was anxious to show a visiting colonel how quickly he could get his camp marching. So I am not surprised with this World War on that these alerts are sounded just at the most unsuspecting moment. Apparently the rumor regarding the President was correct because I noticed where he had been down there, and he was also out at Fort Riley.

Jack Ballard, whom you know, wrote me from Fort Riley that he was one of the honor guards that sat with the President in church at Fort Riley on Easter morning. He certainly was all set up over the fact because he sat just four rows from the Commander-in-Chief.

All of our basketball boys are now in the service. Charlie Black is in Utah, Ray Evans is in St. Petersburg, and Armand Dixon is in California. They are scattered to the four winds of the United States, but none of them have gone overseas as yet. I am obtaining a list of all the boys and we expect to write a monthly letter to them. I will send you a copy of our next month's issue.

Now, regarding the photos. I will be honest and state that I am not sure that I can locate them but I will endeavor to do so. I have this bad habit. I will carry a pack of envelopes in my pocket for about two months. I generally use these envelopes on the outside

to make notations on and then when they are about worn out I take a new pack. So I will have to look back in my old supply and see if I can not locate them. And if I do I will be very glad to send them to you.

With all good wishes to you two, I am

Sincerely yours,

Sunday 4-18-43

Dear "Phog"

It was grand seeing you again, but somehow you didn't seem at ease, and it bothered me. I guess you were disturbed, but neither of us should have been. Myrl thinks you are grand, sincerely likes you, and I hope you like him, too.

We had a very nice, but short, furlough. Most of the time we spent in Iowa, and it managed to rain quite a bit, even got low enough to freeze. Living on a farm is wonderful, and I do believe I like it better than city living.

Today the entire 88th division was called an "alert," pretty unusual for Sundays, and I'm practically tearing my hair, wondering just what is up. I never was any good when it came to suspense. There is rumor going around that the

President is supposed to be here, but it is only a rumor so far. No one will probably know he's even left Washington until he is safely home again.

Everything blossomed out in Mesquite while we were gone. He hardly knew our own street when we came to it. Even the lilacs that were frost-bitten early in March got new life and blossomed out.

I meant to ask you when we saw you, do you still have that photo of Myrl that I had bent in two. I know you don't want it, do you? And gosh, for all I know now, you might not even want that lil picture of me anymore. (I am still puzzled about the "new" you, I guess.)

Write to me, anyway, will you?

Regards,
Jad.

A.P.O. 437 - c/o Postmaster,
Los Angeles, California.

Dear George:

I was very happy to get your good letter and to know that you are getting along so well. Of course, I am happy that you were pleased with the letter. We are planning on amplifying that service a little so that we will have a list of all our "K" men who are in the service, and also their location. It will be a fine thing for us to know where each and every one of the boys are and just how they are progressing.

I am glad that you like your work. Certainly when you come back to Lawrence you will know a lot more about it than not only the assistant postmaster, but another fellow that I know of. Guess who?

I trust that you will get in O.C.S. and I am sure that you will because the grades that you have made will qualify you for that. Perhaps they would rather keep you on the job there because you can do a lot of constructive work, but as far as you are concerned I would be selfish enough to want the O.C.S. and would try to get it at the first opportunity.

I just got a letter from Jack Ballard and he was fortunate enough to be one of the escorts for President Roosevelt at Fort Riley. He sat just four rows away from the Commander-in-Chief, and he got quite a thrill from it. Jack is in the motorcycle division. I imagine if that bloomin' motorcycle got going too fast Jack will just put his feet down on the ground and put on the brakes. Anyhow, he likes it. He has won first place with the .45 and he has also won first place among the sharpshooters. And by the way, you remember Melvin Griffin. He is first lieutenant in the Marines and he did just the thing that Jack accomplished. These boys in athletics, some of them, have pretty keen eyes.

Lots of good luck to you, George, and you may rest assured that we will endeavor to keep the home fires burning while you are away.

With all good wishes to you, I am

Sincerely yours,

May 3, 1943

Dear Doc:

Alberta sent me a copy of your letter to the boys, which I received today. To say that I was pleased is a weak way of expressing my real feelings. I realize more than lots of people just how busy you really are, and can appreciate the task it would be to write to each of us who look forward to word from home. Your plan of a consolidated letter is aces with me.

I have a real job here. I am on detached service from my outfit. One 2nd. Lt., and 17 enlisted men are operating APO 437 until a new unit is activated to take over. I am senior non-com here and am acting first Sgt., along with my duties as Army Mail Clerk. The postal service is the one branch of the army where all financial responsibility is in the hands of an enlisted man rather than an officer.

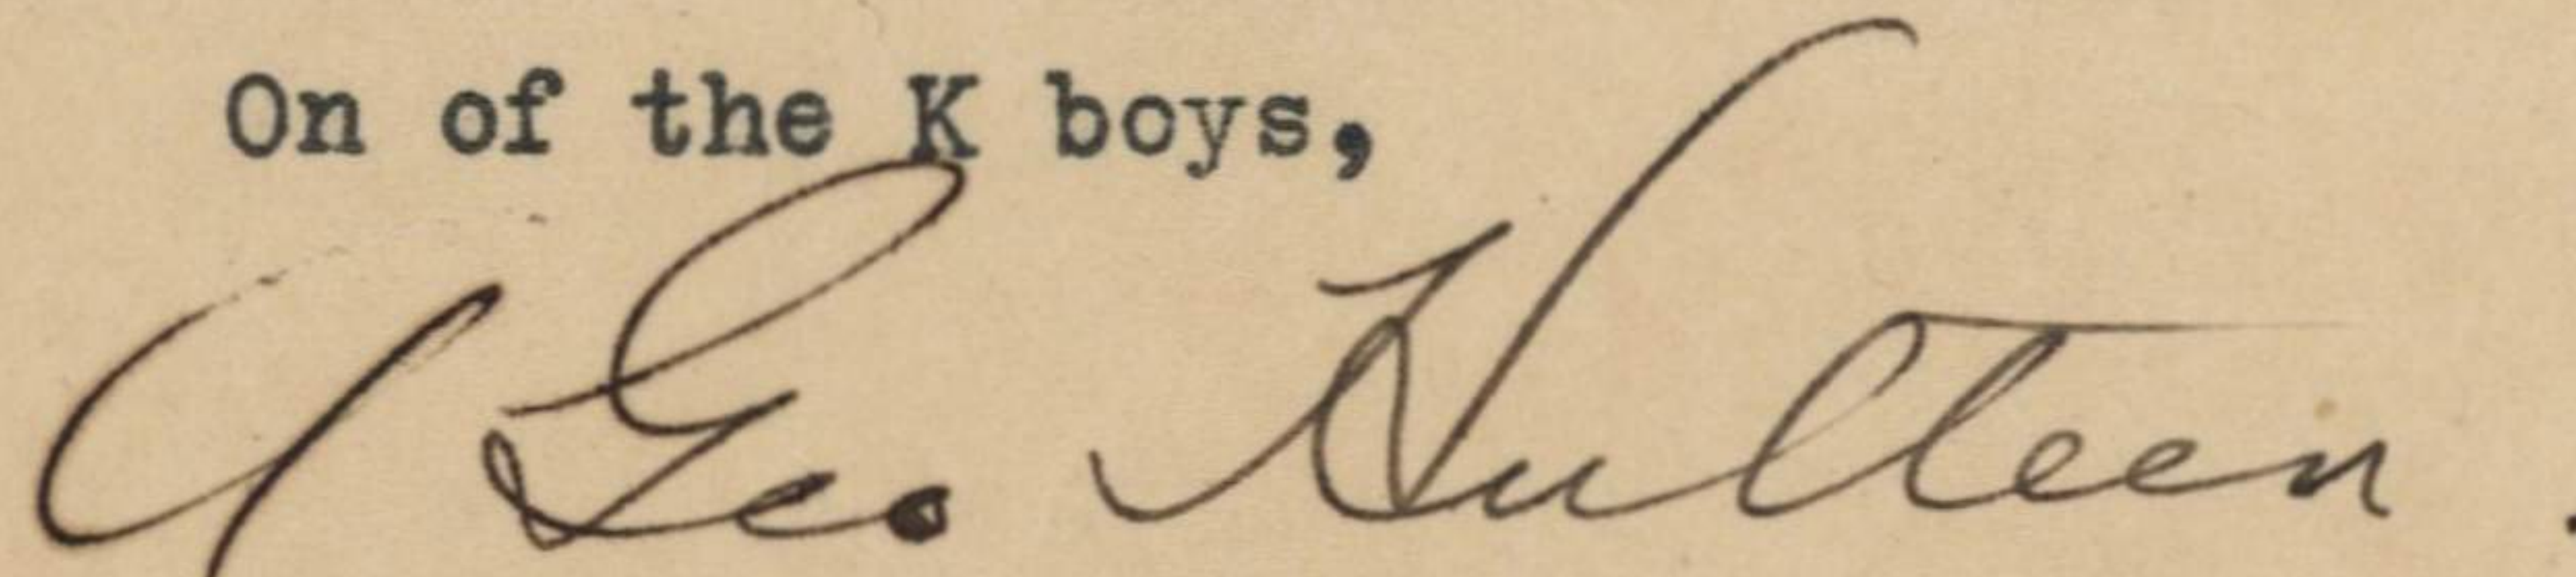

My job as A.M.C. is very similar to that of ASS'T Postmaster in a civilian post office. I have custody of the stamp stock, responsibility for all money order business and so forth. BUT I like it-- It seems to be right up my alley. When I get back to the P.O. in Lawrence, I don't believe the boys will be able to make me take a back seat with regards postal knowledge, for believe me I'm learning a lot here.

I have been working on the possibility of going to officer school, and believe I'll get the job done one of these days. The army has a project which is called the "Army Specialized Training Program". I have taken the preliminary examination which I passed with better than a GOOD grade. I am awaiting a call to be interviewed by the board of officers who have the responsibility of selecting men to be trained as officers in the branch of the service in which they are best qualified. If I can convince the Board that I am of officer caliber, maybe I'll get to go to school some more. It will be worth it for I believe that I can pass and eventually become a wearer of the BRASS rather than stripes. That seems to be what Alberta wants, so I guess it's the smart thing to do. She is usually right-- or did you know that?

Once more I want to express my appreciation for having been remembered. It is a treat to read your letters, and I shall look forward to the monthly letter to the boys. One of these days this struggle will be over, and I'll be coming home to take your secretary away from you. Until then I'll be thankful that she is under the guiding hand of so good a friend.

Adios Doc, I'll be looking for more word from you.

Dear "Doc:"

I have your letter of April 30.

I was very pleased to hear from you again and to have your ideas on the choice of the N.C.A.A. Committee last year. I surely can second your ideas concerning Dr. King. You would only have to read the fine letters that he has sent; especially the one following our announcement this spring, to know of his fairness. I hope nothing will ever reflect on him but of course he is only one on a Committee; but we can always be sure of his position.
