Capt. James K. Hitt,  
Camp Edwards, Mass.

Dear James K.:

I got a letter from Hoyt Baker this morning from Camp Edwards and he told me that he had a chat with you a few days ago.

I am enclosing a copy of our Jayhawk Rebounds which will give you some of the activities on the campus. Bert Nash is military coordinator for the A-12 boys, and he and Capt. George B. are as busy as a one-armed paperhanger with the itch, figuring out schedules and getting ready for these boys.

With all good wishes, and hoping to see you on Mt. Oread in the not too distant future, I am

Very sincerely yours,

Director of Physical Education,  
Varsity Basketball Coach.

Dear Dr. Allen ~~and~~ Mrs. Hulteen,

Seriously, we are pressed from 6:00 in the morning 'til 10:00 at night, ~~and~~ we have no time to ourselves above some very little study time ~~and~~ time to write letters. If I can possibly find time I shall write, but it's not likely.

I can assure all the boys in civilian life there at K.U. that their physical training will stand them in good stead.

I hope you all have a pleasant summer ~~and~~ don't have to work too hard.

Sincerely,

F. D. Holland, Jr.

Dear Buddy:

We were happy to receive your post card  
and to know that things are going well with you.

I am enclosing your check, which Mrs.  
Hulteen obtained at the Business Office today.

We have around six hundred V-12 boys  
here on the campus, and are expecting seven hundred  
A-12 (Army) boys on or before August 9th. So you can  
see that we are finding ourselves busy most of the time.

Lots of good luck to you.

Dear Bill:

I am glad to have your letter of July 7th and to know that you are will pleased at Purdue. I know that you will enjoy Piggie Lambert's style of play. It is a fast-moving, high-scoring, marauding outfit, and you will like that. I am glad that you got to meet Coach Lambert.

I will certainly make it a point to express your good wishes to Kirk Scott.

Thanking you for your good wishes, and hoping to have you back when the fuss is over, I am

Sincerely yours,

Dear Sir,

Everything is going swell with all of us here at Purdue. Classes started today and everybody carries twenty hours.

I was made a section leader and have a pretty fine bunch of fellows under me.

Today I made contact with Mr. Lambert. He seemed like a real nice fellow and said to tell you hello. He checked me out a set of equipment and a ball. Every night about four of us practice. Two of the fellows were on last year's team and they are trying to teach me his system.

There are about twelve hundred of us here that is including eight hundred navy fellows. They include some mighty fine athletes. Most of all of the Missouri and Illinois football teams are here.

If you see Kirk Scott tell him hello for me. Best of luck in basketball this coming season.

Sincerely  
Bill Haynes

Dear George:

I am mighty happy that you liked the letter that I wrote. I will be very anxious to hear whether you are successful in receiving this commission without attending school. You have the qualifications for it and I believe that you will get it.

But if you do not I know that you are enough of a soldier to play the game one hundred per cent. Anyhow, we will all be pulling for you and hoping that the best will come to you. Good luck.

Tues Eve.  
June 22, 1943

Dear Doc:

Thanks for the grand letter. I don't know when I ever read a letter that said so much - so well.

If I have a chance at all for a direct commission, I'm sure your letter will do me lots of good.

I was accepted by the Officer Candidate School Board a week ago last Fri. I took my physical exam today. Now I am on the waiting list to be called for Officer school. Rather than wait for the call, I have decided to make application for commission without attending school. I have some very good letters, including your own, which should go a long way toward

UNITED STATES ARMY

accomplishing the job. The officers under whom I serve, are very anxious to do all they can to help me, and three of them are adding their recommendations to my application.

I understand that there has been some very high water at home. I hope everything is now under control.

Thanks again Doc, I guess you know that both Alberta and I appreciate the many nice things you do for us.

Yours special  
A. G. Nutten.

Dear Dr.Allen,

Thank you for sending the letter of Miss Heinbaugh,  
from Omaha on to me. I have written to her about candidate.

I am enjoying my work very much. The Navy has taken  
over the women's pool for the mornings, so my classes have  
been adjusted for afternoon. That of course means my golf  
comes in the morning, but I like it that way.

The weather has been so cool here this week, that I  
have been wearing wool suits. But no doubt it will bear down  
on us soon.

Sincerely,

Dear Doc - Thanks for your personal letter and the news bulletin about all the boys. Thanks also for your effort to locate the stop watch. I just imagined that a fellow like you who played the horses and one who had been around tracks, meets, etc., would have dozens of stop watches laying around. It's funny the idea a fellow can get about the other fellow's business. Things continue to go well with me tho I don't seem to get even close to any excitement. I hope you make every effort to put a team on the floor next season just so we can continue the string to twenty conference wins. Even if you have to play Hobbes and S. H. S. I think H. U. basketball should continue.

Dear Dr. Allen, Mr. Sherk, Mr. Strait,  
Mrs. Hulsten, etc. Sunday - June 27

I don't have much time that I can call my own so I would write you each a letter. But since things are like they all this will have to do.

Well how is everything back at dear old Kansas? I sure would be glad to see back. It's been about 102 in the shade here and no shade. We took two - 20 mile - hikes last week with full - field packs. I thought I was in pretty good condition, and I was in a lot better condition than most of the men here, but those hikes or marches were really a grind. Be sure and work the tail off the boys in the conditioning classes because they will never hold it against you. They may feel bad at the time but when they get in the service they will thank you for it. Work on their arms & legs that seems to be the biggest thing. Be sure they can do lots of pull ups, push ups, and dips on the bars because they give you a muscular efficiency test and that is what it consists of.

Be sure they can duck walk a long ways because in the hand to hand combat exercises you go around in a low crouch for about an hour, and if your legs are not in good shape you won't be able to do it.

Norman Standlee, all-American from Stanford, is in the barracks next door. "Dub" Hartley said to say hello to every one. He and I are in the same room. There are also two other fellows in our room - one from California (Redondo Beach - he went to school with Armand Dixon) and one from Minnesota.

I've had a lot of fun so far but it has been a grind and it is only beginning. Yesterday we got 18 boys who were in their 10<sup>th</sup> week but because of Academic trouble they have to start all over. That would really be tough. I am hoping and praying I can make it in 17 weeks because if I get sent back the course will probably be 24 weeks long.

Where are the rest of the fellows from  
K.U.? I would appreciate it if you would  
send me their addresses. Maybe I'll have  
time to write one or two of them.

You <sup>have</sup> never seen ~~the~~ mosquitoes like  
they have here. They pull the sheet back  
and look at your dog tag to see if you  
are the right type of blood before they go  
to work. Oh yes we do all our tumbling  
exercises & so forth out in the sand I haven't  
seen anything I would call grass around  
here. There's signs up "keep off the grass" but  
they should be "keep off the sand."

Well I guess that's about all I  
have time for. I've got a lot of washing  
and shining to do so I will close for  
now. Write soon and often if you  
will - It really helps keep your mind  
off the routine & helps to relax you.

See you in November

Yours

Warren

UNITED STATES NAVAL AIR STATION

RICHMOND, FLORIDA

Address:  
Commanding Officer  
Naval Air Station

May 5, 1943.

Dear Doc:

Last Monday I received your letter and I must say it was a great idea and contained all the news a fellow would like to know from his old haunts. We haven't been taking the Journal word and most of the news I had received about the sporting events came via letters from Anne Laughlin and Ed Kayman from the N. Y. A and the folks. Some of the scores your boys made during the season were astounding. I also enjoyed the write up about this year's teams and it was a pleasure to know they had that old fighting spirit both figuratively as well as literally. I had my troubles during the basketball season too. The officiating was pretty lousy and you got away with murder. I always did like it rough but I almost said "papa" in a couple of games we had. In the last game I received a broken rib from a timely elbow but managed to get in a good rabbit punch to even

things up. To give you an example of how  
poor the officiating was the referee called  
a jump ball and play continued  
as if nothing had happened.

We are now playing baseball  
and from the material reporting so  
practically it appears we will have  
a likely looking club. Two of those  
turning out have contracts with  
two major league teams. I am  
the assistant coach but it looks  
like I'm more of a playing coach  
than anything else. Lt Reinischmidt  
is the coach.

I am also mailing under separate  
cover, a station newspaper we  
publish on the base. I serve as  
editor in name but am the  
reporter, publisher, sick screen  
operator and general manager.  
It is a headache and thankless  
job. Too many fingers in the pie  
and too many "big shots" interfering  
with our progress.

I was certainly glad to know  
what the addresses were of some

of my old buddies especially  
Don Ebling. He went thru training  
with me at Norfolk and then later  
he went to gunnery school. I often  
wondered what his duty and location  
was after he left Norfolk. Will  
try and drop him a line.

Doc I certainly thank you  
for the help you gave the folks.  
I have written mitt and expressed  
my thanks to him but am at a  
loss to find a way or means  
to do so for you. Dad is getting  
along fine, I understand from  
my mother's letters and it takes  
a tremendous worry off my  
mind to know he is doing so  
well. I thank a million Doc.

Keep the letters coming as the  
last one. George Stapleton and  
his wife, Peggy and I all went

swimming last Sunday over  
at Miami Beach. We had a swell  
time and are all tan as niggers,  
I know George enjoyed your letter  
too.

Max Reflogle flew in at this base  
a week ago to see me. When he  
landed the Captain of our station  
met him at his plane, a SNJ3, and  
brought him to the recreation building  
to see me. We had a fine visit  
and enjoyed our selves a great deal  
rehashing old times. He had to  
back me up on the calibre of  
basketball played in Kansas. Before  
this visit I was all alone in my  
arguments but since Max  
backed me up I've heard little  
comment. Max is a Senior grade  
lieutenant and looks fine. They  
consider him the best fighter at  
Opalocka air station.

See Jim out of space and news he  
will close looking forward to another  
letter from you.

Yours sincerely,  
Freddie Harris

THE COLLEGE PHYSICAL EDUCATION ASSOCIATION

June 23, 1943

Dear Member:

The problem of maintaining the necessary staffs to do a most important job in the present war training program is getting increasingly acute in college and university departments of physical education.

The Association is interested in doing whatever seems advisable at this time to alleviate the situation. No one knows for certain that anything can be done. To assist your officers in whatever efforts they may make will you supply information to the following questions?

1. Does your institution have contracts for training any of the Army, Marine, or Naval groups? If such contracts exist please supply the following:

1.1 Approximate total number of men in all Army, Marine, or Naval groups combined for which physical training must be provided.

2. Is your own civilian staff expected to conduct the physical training program for these military groups?

3. How many members of your staff have you lost to the armed services or to defense industry?

4. Have you tried to secure replacements for your staff and have you been successful?

5. If you have lost staff members and have not been able to employ new men does the size of your present staff make it difficult to do the job that is expected of your department at this time? Answer fully.

Add any other information that you wish concerning the manpower problem in your particular college or university.

This letter is going to a sampling of colleges throughout the country. It is important that each one of you reply immediately.

To be of use to your officers these replies must be received by me not later than July 1st.

Thank you for your cooperation.

Very sincerely yours
