PHYSICAL EDUCATION FOR MEN

Dr. F. C. Allen
University of Kansas
Lawrence, Kansas

Dear Doc:-

I have been more or less waiting on you to see if something couldn't be worked out in relation to the Kansas City games on Dec. 10th. and 11th. I'm still holding these two dates. I could play you a single game on Dec. 18 in Kansas City.

I was talking to Hank Iba this morning to see if he would be interested in playing on the 10th or 11th. He tells me that he would play on the 8th. and 9th. With Missouri Kansas and Oklahoma, I think we all would make some money on the games. I would be available for these two dates, if all will agree on it.

Now if you have made other arrangements, please let me know right away for I want to play at least one game in Kansas City.

After playing Tulsa University, I can understand the value of Czar over intercollegiate sports. Brother they have them from the four corners of the earth. Feel sorry for "Lou" at Nebraska and from all indications, I don't see where he will win a ball game. Let me hear from you soon.

Sincerely,

Bruce Drake
