PHYSICAL EDUCATION FOR MEN

I hope that we meet this Sat. as our Army classes will not start until Monday. However Sept. 18 can be worked out O. K.

I'm having quite a time with my games with A & M. I suggested to Hank that we try out the new suggestion regarding "Goal Tending". He only laughed. As yet I haven't any games scheduled with him. However I will go ahead and schedule them regardless of the rules. I'm wondering tho how this ~~will~~ rule or suggestion will ever be tried out when the coach that has one of these big men refuses to try it. However I'm going to insist that we use three officials for our games with them. It's impossible for the official under the basket to be in a position to see when he sneaks his long arms in the imaginary cylinder as did Kurland on several occasions.

My best wishes for your continued success. Regards to the boys and Mrs. Allen.

Sincerely,

Bruce Drake

Coach of Basketball

P. S. After my last letter to you I talked to Dale Arbuckle our director, and wish to state that he isn't in favor of the double game business.
