

is situated on Cape Cod, about 60 miles from
Boston and the country here is very beautiful. The
weather here is quite cool, at least by comparison
with Texas and Kansas, and it's hard to believe
that it is August. We sleep under blankets every
night.

I've seen very few KU boys since I came in
the Army. Most of the Kansas men that I have
met have been from Kansas State. But we're
all on the same side in this game.

Thanks again for the rebound. I think the
fine competitive spirit you instilled in your
boys will make them fighting men of the highest
caliber - men that the nation and the University
will be proud to honor.

Best wishes to Mrs Allen and yourself
from both of us. -

Sincerely,

J. H. T.
