WILSON,

Feb. 7, 1941

Dr. Allen  
Dept. of Athletics  
University of Kansas  
Lawrence, Kansas

Dear Dr. Allen:

Mr. Harry Downs has mentioned a time or two that he had talked with you about a possible interest in my program for boys out here in Jackson Hole. Each time he has mentioned it I have had a strong impulse to write directly to you, for I believe we understand the same language.

I remember hearing an address of yours at a Kiwanis Club luncheon in Lawrence. It clicked so with my own philosophy of building men out of boys that I wrote you a note of appreciation.

There are two supreme places where a boy can come up against a superb self he never knew existed ---- and perhaps make it a part of his normal self ---; one is the athletic field and the other is with nature in the raw. You have built your life into boys thru one medium and I thru the other.

Perhaps we could combine forces to the advantage of all concerned, including the boys.

Sincerely yours

CSH/e.

Cliff Higby

Sorry I can't find your initials anywhere. "Phog" seems to be the all anyone uses!
