Dear Dr. Allen:

You certainly owe me no apology for not writing me further with respect to the coaching job at Stanberry. I know how busy you are, and I received a note from Mr. Dugan.

I am going to Stanberry this week-end and will see what the score is.

It was interesting to note your remarks about Missouri. I knew you were a Missourian, but didn't know you were born in Jamesport. My grandfather had a store there for many years, and I have been there many, many times. The place is almost a ghost town now however.

With kindest personal regards, I am

Very truly yours,

Albert E. Haas
