March 19, 1941

Mr. Darrel Hinkhouse Beloit, Kansas

Dear Darrel:

Thank you for your kind words regarding our victory over Oklahoma.

You were very nice to pay tribute to our boys at Kansas. We are very proud of them, and the thing we are most proud of is their behavior on and off the court.

I don't know how to say the thing that I wish to say. I know the croud at Lincoln was bad, and I believe unconsciously or subconsciously at least that their boisterousness affected somewhat the officiating of you two arbiters. Perhaps no person can be entirely non-affected but when one crowd behaves and the other crowd misbehaves, the visitor gets the worst of it.

I assure you that we enjoyed having you. You did a good job, but it was too tough for beginners to handle that Nebraska crowd.

Sincerely yours,

Director of Physical Education and Recreation Varsity Basketball and Baseball Coach

Dr. Forrest C. Allen, Director Physical Education and Recreation Varsity Basketball Coach Lawrence, Kansas

Dear Dr. Allen:

Congratulations on your victory last night. I certaily would have enjoyed seeing that game, but the distance and other work made it impossible.

Dr. Allen, I wish to take this opportunity to tell you that I surely do appreciate the opportunity of working for you and your team in three Big Six games this season. It is a pleasure to work for your boys. Each of them is a perfect gentleman.

Please extend my congratulations to Howard Engleman and your son, Robert Allen, as being chosen on the first Big Six team. Each of those boys deserves that honor. Thanks again, Dr. Allen. I am

Cordially yours,

Darrel Hinkhouse

Mr. Larry Hensley 1503 Central Street Dodge City, Kansas

Dear Larry:

It is all right, Larry. I am glad that you are happy and if you wanted to do what you did, it is perfectly all right with me.

I do feel, however, that it would have been a sporting thing for you to have told me when you went down with the basketball team to Wichita that you had procured a job. Howard came to me and said that you wanted to take the trip and I, very accommodating, wanted to please Howard so we took you along and, of course, put you in the game.

You know, Larry, I have lived long enough to know that doubtless you wanted to go to Wichita to find out about the job and the fact that you could travel with the team would save you the expense. But I believe that you should have told me when you came back from Wichita that you had obtained a job and that you were not expecting to enter the University for the second semester.

I think it is youth more than anything else that causes a fellow to do that, but I went to assure you that it is perfectly all right with me and I am glad you got the job. I do think, however, that you made a mistake in entering professional ball before you completed your university education. It would have been a lot better to have told me and not kidded me along. Again, I say it is entirely all right and I have not the slightest ill will against you.

On the other hand, I have a very fervent desire that you shall make good and that you shall obtain the things you desire. Let me hear from you occasionally telling me how you are getting along. I am for you 100% and I trust you lam the life out of that ball.

With all good wishes, I sm

Sincerely yours,

Director of Physical Education and Recreation Varsity Basketball Coach

Dear Mr. Hensley:

Your son Larry came in yesterday afternoon to talk with me concerning the particulars of a letter that I wrote to him some time back.

Larry had written me a very fine letter thanking me for the courtesies that I had extended to him, and he was rather shocked at the tone of my reply. So he came in yesterday to go over the matter with me. After Larry had explained his honest intent and purpose in going to Wichita with the basketball team, I could see how he felt in regard to my letter to him.

There are so many boys that take short-cuts on such propositions similar to this that I wanted to frankly explain to him how I felt in similar circumstances. I have been the victim many times of such strategy. In this case, however, I am very sure that I missed Larry's honest intent.

Howard Englemen came to me and asked me if it would be possible to take Larry along to Wichita. I said yes. After matters turned out as they did, I naturally viewed Larry's trip there as one designed to primarily aid him and I frankly told him so. On circumstantial evidence it could easily have looked that way.

I believe Larry loft here feeling that I was perfectly honest when I was with him yesterday as I endeavored to be in my letter which I wrote to him. I feel it is better to tell a boy exactly what you think and, he being honest, if there are misunderstandings they are soon clarified.

many pleasant contacts with him, but no intimate connections. He had never been on a team of mine. Although I had watched him play on base-ball teams as a spectator, I had not had an opportunity to get under his skin as I do with most boys on my teams. I have always had a very high opinion of Larry and this occasion of yesterday has caused me to raise my estimate considerably. He is fine, clean, straightforward young man, and if at any time there is an opportunity that I

Mr. H. R. Hensley April 5, 1941 can help him progress in any way, it will be a pleasure for me to cooperate. To you, Mr. Hensley, as father of Larry, I am writing this letter so that there will be no misunderstanding why I wrote the letter to Larry. Mrs. Allen and I have had three sons and three daughters and we now have four grandchildren, and I have found that everyone of the children are different and until you intimately know their inner reactions, I find it is quite a difficult problem to adjust yourself to their ways of thinking and doing. There is no scientific way that I know outside of the trial and error method and as I said, I am sorry that I missed this one on Larry, but I am happy that he came back for a full understanding. With all good wishes, I am Sincerely yours, Director of Physical Education and Recreation Versity Basketball and Baseball Coach co: Larry Hensley

Mr. Vence Hall. Downs, Renses.

Dear Vance:

I certainly was delighted to get your letter of last Monday and to learn that the farm work is agreeing with you to an unusual extent. The rain has ceased and I am sure that stacking alfalfa bales will put the old muscle on you to such an extent that you will devour cepious amounts of food to feed the body of one V. Hall.

I am happy to learn about the fine wheat cop.
It is about time that western Kansas was getting something that should be coming to them.

I have told the family about your letter, and Mrs. Allen and Bob and the rest of the family wish to extend their best wishes to you and your family.

I will send you the basketball equipment when you write for it, but I imagine that you will want to get harvesting out of the way. I wouldn't feel with basketball until you really want to shoot some goals, and then the equipment will be forthcoming at your request.

I sincerely hope it will be a great year for you, and I am sure if spirit and training has anything to do with it, so far as you are concerned, we will have a great team.

With all good wishes, I am

Sincerely yours.

Director of Physical Education and Recreation, Varsity Basketball Coach.

Downs Ko.

Dear Dr. Allen,

I thought I'd drop you a note to
tell you how sorry I am that I didn't
get to see you before I left. I stopped
a few times the last week but your
always were busy or ant, it sumed.
I did want to thank you for my
job in the towned soom as I certainly
appreciate it.

Store, and work, of rain lotely.

It has been raining continually for

two days now. I was supposed

to go to work this most morning,

starking alfalfa bales, but of

course it is too wet in the fields.

Howest should slait in about

eight days then I really will be busy. If it doesn't vain too much the wheat crop will sure be a large one around here. Sahar is needed badly as many men have game to the anny. I would like to have some basketball egurpment later on, hat I will write you about that sometime after we are thu with Darrest and planning. Hoping that the year of 42 will be as hopping as 41 and that we have a great bashetball season, Jane Simuly yours, Vance Hall. Please give my best regards to your family. Inother still talks of the way Ins. allen took care of me on our trip back east.

Livery will be addressed the said best .

Mr. Vance Hall,
Downs, Kansas.

Dear Vance:

I received your very good letter of the 17th instant from Lake of the Woods, Canada, and I assure you that I was happy to hear from you. I thought perhaps I had better send this letter to Downs and have it forwarded rather than take a chance on mailing it to Canada.

THE REAL PROPERTY OF THE PARTY BEING THE TOTAL THE MEDICAL TOTAL THE PARTY OF THE P

Last spring I made most of the arrangements regarding the supervisor's job. However, I want to have a talk with you regarding the possibilities of such a job in your senior year. You will remember that Mr. DeGroot complained quite a bit on several occasions about your lack of punctuality and perseverance on the job. While I have great confidence in you, Vance, I want you to realize that one of these jobs entails much concentration and punctuality. It is always difficult for an administrator to put anyone on the job requiring much more responsibility than he has assumed in his clerical work.

When you figure the time lost away from school on trips for basketball it does not amount to a great many hours. When you consider a nine months period and figure the few hours that you lose it doesn't run into a lot of money. And too, Vance, if you need money that badly we could give you some extra hours, if you want them, but generally we find students are cutting their hours pretty close so that they can get out and do something else. You know what I mean, do you not, Vance? There are so many wonderful things in college -dates, dances, ball games, and so forth, that are a part of student life, and a boy hates to pass them up. He realizes a responsibility in earning a living and he is very serious, but when he sees a pretty girl and has a coke date he is like the old inebriate who said, "You know, there are a thousand reasons why I should not take this drink of liquor, but darned if I can think of a single one of them just now."

I can pledge you, Vance, my friendship and my desire to help you. At the same time, unless I was utterly frank with you and would pass on as an inventory the criticisms that Mr. DeGroot made, then I would not be fair to you. Somebody of necessity must take the responsibility and the fellow who takes that supervisor's job has double trouble.

I took your letter home and read it to the family. Mrs. Allen considers you one of hers since she nursed you while you had the flu enroute to New York.

With every good wish, and hoping to see you real

September 19, 1940 Coach Floyd Hanson Sabetha High School Sabetha, Bansas Dear Floyd: I am to be at Beloit Friday night and I plan to swing through your town Saturday morning on some of my business quests. There are some things concerning you and your future that I would like to talk with you and Mrs. Hanson about. I am not exactly sure just at what time I will arrive, but I will be there in the morning and will make it a point to look you up as soon as I get in town. You can rest assured that I am always for your growing success. With all good wishes to you both, I am, Sincerely yours, Director of Physical Education and Recreation Versity Basketball Coach FCA:1g

FEDERAL SECURITY AGENCY

#### NATIONAL YOUTH ADMINISTRATION

FOR KANSAS

NEW ENGLAND BUILDING, TOPEKA, KANSAS

December 7, 1940

Dr. Forrest C. Allen
Director of Physical Education
University of Kansas
Lawrence, Kansas

Dear Doc:

Some time ago I wrote you a note and promised to follow with a lenghy letter. This happens to be that letter. When Miss Laughlin gave me a job she did just that. My job here consists of Senior Supervisor (title) with eight other supervisors Under me to keep in line. In addition to acting of superintendent of the Topeka project, it is my job to see that the building remains in good condition. There are two buildings, one that is used as a shop in one end of town and the dormitory in the other end of the city. Each morning the boys, whose ages range from 17-24 years, are given bus to one to ride to and from the shop. In the course of a month the government has purchased 8 000 tokens. To be specific that is \$500.00 worth.

I serve as the disiplinarian and general counciler for the boys. We have what we call our House of Representives that serve as the governing body. They have several committees that are appointed such as: rules and regulation committee, ways and means committee, judicial committee, permits and priviledge committee and several others of lesser nature. My job was to organize and formulate this self government. It was some job to formulate the work but appears to be some takk in getting it to working on all four. However we have been accomplishing something.

A committee on recreation has been appointed to aid me in carrying out some form of physical education. The equiptment is the hardest item to get. The government has the money but in order to get the articles I want, a larger amount of red tape has to be unwinnd. It is more work to get equiptment than it is to actually set up the recreation program and supervisex the play. Most of the games that we have at the present are games that the boys have made themselves under supervision. We have made all our checker boards and checkers, chinese checkers, box hockey, shuffle board, and horse shoe equiptment.

One thing that I have been trying to establish here is for the boys to be sociable. It is being run much on the order of a fraternity. Some of the boys pick this up fairly easily but some of the boys who are from the poorer and less refined familys are a little slower. However we are progressing which is not at all discouraging. For breakfast and dinner the boys wear their work clothes but remain standing until the lady food supervisor is seated. For the evening meal the boys are required

# FEDERAL SECURITY AGENCY NATIONAL YOUTH ADMINISTRATION

#### FOR KANSAS

NEW ENGLAND BUILDING, TOPEKA, KANSAS

A CONTRACT OF A

to wear a clean shirt and a necktie. This does not necessarily mean that they wear a coat as some of the boys do not have suits.

For entertainment we usually sing songs at the table that rang all the way from "Ive been working on the railroad" to "God bless America." From all indications they enjoys this very much. One day about a month ago I got the bright idea when I heard one of the boys playing on his trumpet to form a swing band. At the present time that ide is not only an idea but a reality. You would be surprised to hear them. Some of them have actually played in swing bands before and know something about how to play. Before we could do much with the orchestra we had to have a piano so by some short curves with the State Procurement office I bought a dandy piano for us for only \$30.00. Next we lacked only the piano player, amusic and orchestra stands. I sent the ways and means committe to Miss Laughlin and she donated \$10.00 for music. The boys are building the stands out of scrap lumber. One of the members of the band knew a fellow in town who played the piano and who at one time had an orchestra of his own. He consented to play and instruct the boys and also he had several old orchestrations that he donated. That left the drummer without any drums and the guitar player with out a guitar. The piano player is a pawn broker and he furnished them with their playing equiptment. Now we have a bass fiddle player with out a bass fiddle and one of the boys here has offered to make him a base fiddle out of a wash tub and a broom stick. I don't know how it was will sound but they will have a lot of fiun/

Because there is so much running back and forth I had to use my car but that was running up a gasoline bill, and a repair bill that would make the war debt look small, I takked Miss Laughlin into giving me a government car. The car will be here about Monday. I tried to talk her into a raise in salary but could do nothing about that angle. However she did promise that as soon as the buildings were completed and all the construction and painting was done she would take care of me on this matter. The project at Eskridge Kansas has been causing her non to little worry and I think I picked about the worst time I could to takk finances with her.

I almost forgot to mention that we have formed a basketball team. The boys attend the church about two blocks away and have started to play in the church league. I got the Ripley gym for them once a week and work out with them if I have time. Some of the boys are fairly good. If I find any likely prospects I will send them to K.U. but I doubt if they are that good.

Here at the dormitory I eat, sleep, and play with the boys. I am on duty 24 hours a day. Several night I have been called out of bed at 2;00 or 3:00 o'clock in the morning to take care of a sick boy. That is all in a 24 hour days work. I think I will live thru it tho. If and when I leave this job there isn't many jobs that I couldn't qualify for. I am a doctor, an authority on Sheet Metal, Radio, photography, woodworking, cooking, machine shop and welding, and all problems dealing

# FEDERAL SECURITY AGENCY NATIONAL YOUTH ADMINISTRATION

FOR KANSAS

NEW ENGLAND BUILDING, TOPEKA, KANSAS

with boys problems. I think I could act as a social worker, a coach, a judge, and anything else that deals with people.

The second will be the second to the second

Doc, I have attempted to give some kind of a background of my work. It is very interesting. I have one boy who has been in the reform school and who is trying to work his way up again. I give him all the encourgement I can and he is doing a we swell job. To put him to the supreme test I have put him in charge of my personal quarters. He has not taken one thing as yet. As far as work is concerned he really is a good worker. The only draw back he has is his temper but by talking to him I have gotten him to control it somewhat.

Another case that I have is a rape case. So far this boy has been a model boy. After I had interveiwed him for two hour he told me the whole story. The State office doesn't know about either of these boys and neither does any of the boys. As long as they behave and are making an effort to re-esta hish themselves I feel that It is my duty to see that they get that chance and aid them all that I can. So far everything has been swell.

The rest of the boys are a very high type of boy. Several of them have attended either colleges or University. Right off hand I know of two who have been to K.U. One has had three years there and another has had two years in the Engineering school. Both of them are ideal boys. Another boy attended Baker and played football there and another attended North Dak. school for Science and played football there. Only a few have not graduated from high school. I would say out of the 115 that I now have only 10-15 create any sorter of a problem. Most of the trouble has been misdemeanors such as missing kitchen duty or failing to make their beds. The judicial court passes out all punishment to these kink.

Only one boy has been sent home. He came in drunk the other night and home he went. He had been insubordinate from the opening of the project and this was the straw that broke the camels back. He some way or other got the idea that he didn't have to work at the dormitory but only on his airport management duty. By the way tratixis the airport management course is one of the courses that I left out that we have here. Cap Wells who used to manage the airport at Lawrence has charge of these 20 boys and is doing a swell job. They have built an airplane that that is as good as any you can buy. As a matter of fact if I didn't tell you you could never tell that it wasn't factory made.

Doc, I have been rambling on here about my job but in the way of business I would like for you to plan on paying us a visit sometime. Miss Laughlin asked me the other day when you were coming up. She thought it would be a good idea to have you up when the building was completed. However I would like for you to come up sooner than that on an informal visit and look the place over. You know that I can always use a few suggestions. I am sure that the boys would like to meet you. A little later on when everything is in good shape and everything is completed I would like for you and the basketball team to be our guests at dinner some evening after the first of the year.

# FEDERAL SECURITY AGENCY NATIONAL YOUTH ADMINISTRATION

FOR KANSAS

NEW ENGLAND BUILDING, TOPEKA, KANSAS

A number of the boys here know that I worked under you last year and havebeen hounding me to death about some passes to one of your basketball games. We will have a busk of our own after the hollidays and could get down fairly easy if any arrangements could be made so that it would be satisfactory or permissable to you. If there could be no arrangements made it still will be o.k. but this was just a thaought that might be worked out.

Also the boys have this basketball team and do not have but one basketball. If you have an old one that is laying around and not getting any use you might thow it in the back seat of your car and bring it along when you pay us a visit. We surely would like to have you come up. I would like to talk to you about some mix of the things that are being carried out and some of the things that should be carried out in this program.

Well Doc I have just about told all there is that is important up here. You might drop me a line and let me know what the prospects are for a basketball team. How is Johnny Buescher getting alongwi with his grades? Is he as poor as student as I was? Tell him to hit the books.for me that I am counting on him to be a good man for you. How are the last year frosh looking. I hope that do you a lot of good. Tell all of them hello for me and give the Big Six conference hell.

Must close this letter or the mail man will want to sent this masterpiece by parcel post. Give Mit, Bob, and Mrs. Allen my regards.

Jours very cruiy,

J. Fred Harris

Tell Mit to drop by and see me if he is ever up this way. My address is State and Twiss, Topeka, Kansas. It is over in the Ok Oakland district.

February 26, 1941

Dear Phog:

It is good to get back in Kansas and to look at the old desk again. I am getting stronger rapidly; in fact, Phog, if I were a good Christian Scientist I would say I hadn't been so well in a hundred years!

It was fine to be received back by the news last night that Kansas had gained another triumph, the hard way. That will sure keep the boys in the right mental attitude for the Nebraska fight. Somehow I don't imagine they will forget the tactics of Nebraska you told me about in your fine letter. Anyway, I will be giving you all the "moral" baskets that can be provided.

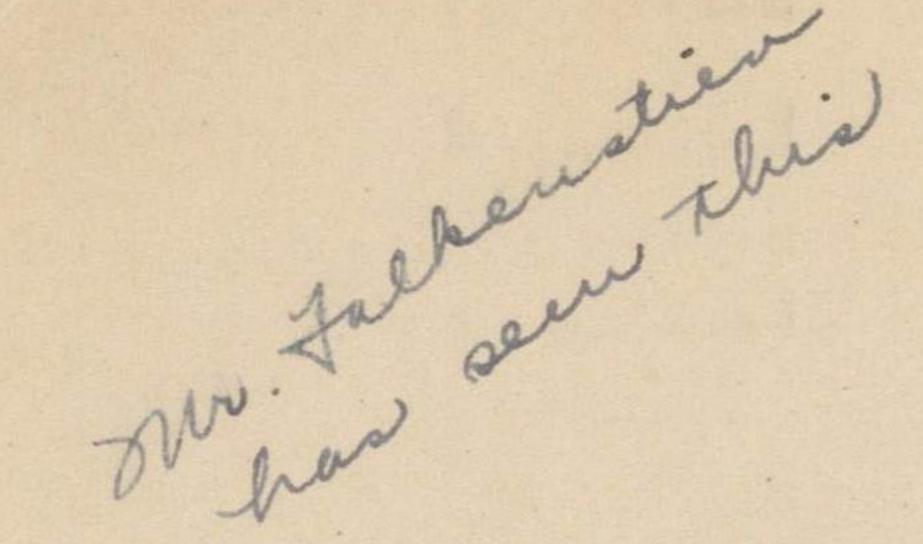

Good luck to you and your gang through the remaining games!

Sincerely,

LCH: VS

March 3, 1941 Mr. Carlos E. Hobbs The Topeka State Journal Topela, Kansas Dear Mr. Hobbs: In reply to your letter of February 27, I beg to state that I would be very glad to sit down and talk with you regarding the boxing angle, and I assure you of my every cooperative effort. You can rest assured that you will get a sympathetic car because I am very fond of boxing conducted on a high plane. In regard to tickets for the Oklahoma and the Oklahoma A. and M. games, I have talked with Earl Falkenstien and he will have tickets for you in your name at the box office, two for each game. With all good wishes, I am, Sincerely yours, Director of Physical Education and Recreation Varsity Basketball Coach FCA:15

## The Topeka State Journal Topeka Kansas

Beb. 27, 1941

Mr.Forrest C.Allen, Basketball coach, University of Kansas, Lawrence.

Dear Dr.Allen:

Since Mrs. Hobbs has not seen K.U. play this year, and since I have seen but one game at Lawrence, I should like to have a pair of tickets for ourselves for the Oklahoma game and also for the Oklahoma A.& M. contest, March 7 and 11.

My Golden Gloves work kept me tied up thru January and half of February, hence was forced to abandon opportunities to see the ayhawkers. But Mrs. Hobbs, since the tournament is over, has been asking me whether we are going to see the Jayhawkers this year.

I didn't ask for tickets for the K-State game because I noticed where you were selling nothing but standing room, so decided I wouldn't try to crowd in. But I would like to see these two remaining games if possible.

I talked to you briefly about the Big Six rule about barring Golden Gloves boxers who are Big Six school members. Because you were in a hurry to get away I didn't get to go into it. I feel, Dr. Allen, that the Big Six is being unfair with that rule. I know other schools are not obeying it. I also know that you do not hold the Director title, but I do think you might be able to create some interest over the matter.

I think the rule is unfair in this respect. I don't think athletes in Big Six schools should participate in outside events during the term of that sport, but participation in an off season, it seems to me should be allowed. Especially do I think that's true, when I know that my show is as cleanly handled and as efficiently administered in regard to amateur rules as any show anywhere. I use every means at my disposal to find out the standing of competitors, and have kicked out more than one who really has a tinge of professionalism attached to him.

Possibly I shouldn't burden you with such a thing, but you've been considerate of me before, and I thought I might at least get a sympathetic ear, and perhaps a suggestion or two.

With kindest personal regards, I am,

Sports Editor

very truly yours Hobbs

March 4, 1941 Mr. Lee Hodgins 3927 Broadway Kansas City, Missouri Dear Lee: I am returning your check received this morning and am sorry to tell you that our tickets for the Oklahoma game were all sold out on February 9, the day before we played Nebraska, and the Oklahoma A. and M. tickets have been gone nearly as long. Just as soon as the Sooners began to slip the A. and M. tickets picked up. I regret that you waited so long, but I frankly believe we could have sold five thousand more tickets if we had them. Sincerely yours, Director of Physical Education and Recreation Varsity Basketball Coach FCA:18 610 .
