to receive it and the schedule. It looks like we will have a pretty tough row to hoe, doesn't it? I am glad we are playing Iowa for I have wanted to play a Big Ten school and see how we will cope with their style of Basketball - very well, I hope. DePaul University should give us a very busy night and we certainly do have a score to settle with Bruce Osborn and his Oklahomans!

I wonder if I might ask you for my travel - room job for the coming year. Perhaps one of the Supervisor's jobs, left open by Harley Anderson and John O'Hara is open. If so I would certainly like to apply for ~~that~~ one of those. If not open I thank you anyway and hope to work ten hours a week passing out the towels. I lost so much time last year, due to trips, and I thought perhaps the Supervisor job would be more satisfactory.
