

close the Trojans have a tendency to lose their equilibrium and give way to wild ball-throwing instead of cool deliberate playing. This was displayed noticeably last evening in the last minute of the game.

---

Quite opposite to the scoring record of the Dragons which showed Hall, of course, with the bulk of the load, the Trojans shared quite evenly with the scoring throughout the game. In our opinion, under average playing conditions this situation is far safer and will constitute more consistent scoring than if one man does all the work. It is merely a mat-

ter of not putting—"all your eggs in one basket."

---

In spite of the icy roads quite a large group of Beloit rooters made the trip, and although the Trojan cheering section was small, considerable noise originated from that part of the gym.
