Dear Mr. Allen:

While visiting the office this week Earl Yoos told me of your desire to see the set of basketball movies you made for the Eastman Kodak Company and which we have been circularizing among basketball coaches in our Seal-O-San advertising campaign. If you will tell me when and where you would like to have this set of films sent I will see that you get them and you can return them to us after you have had the opportunity to show and see them.

With kindest regards and best wishes, remain

Yours sincerely,

President.
