Physical Education Department  
University of Kansas  
Lawrence, Kansas

Dear Sir:

In the first part of the summer I wrote to you about the course offered at Kansas University for Physical Education. You sent to me the proposed course, and I am wondering if you could tell me what subjects that I have taken here at Kansas State College that I could substitute for subjects offered at Kansas University.

I am enclosing a typewritten copy of the courses that I have taken and the number of hours and grades in the courses that I have taken. Would you check over this list and tell me what you can substitute. I want to finish up at K.U. and I would like to get as many subjects substituted as possible.

Although I do not have the funds to enter school this fall, I intend to come to school there the second semester. Do you suppose that I could finish up in three semesters at K.U. ? I would like to take some courses by correspondence that would count toward graduation. Will you please advise me as to which courses would be best to take by correspondence and what the cost of each course would be?

If I could not finish up in three semesters, could I finish up in a summer school and correspondence also besides the three semesters.

Please let me know as soon as possible what I can do at K. U.. Thanking you very much, I remain,

Sincerely yours,

*(Beth Hollis)*
