Dr. F. C. Allen
Lawrence
Kansas

Dear Dr. Allen:

I am writing you concerning tuition fees of a new student named T. P. Hunter Jr. who has formerly lived in Okla.

Hunter's sister-in-law came to me today and said that the boy had talked to you about getting in school on resident fees rather than non-resident fees, and that you had told him that if he could establish residence in Kansas by the 21st of this month that he could get in school on resident fees.

T. P. Hunter Jr.'s father and mother are separated and have been for considerable time. For the last seven years he has been cared for and expenses paid by his brother T. B. Hunter. His brother T. B. Hunter has been a resident of Kansas for over a year and at the present time resides at 428 West 18th. in Hutchinson, Kansas. T. B. Hunter is willing to become the legal guardian of T. P. Hunter Jr. In this way we can make T. P. Hunter Jr.'s address in Kansas as his will be the same as his guardian's.

See Guardian

I am writing to ask whether or not this arrangement will meet the resident requirement so Hunter can enter school as a Kansas resident. I am writing to you as I understand that Hunter talked to you about this matter. If this arrangement is not satisfactory I would appreciate it very much if you would inform me what is necessary to met this requirement. I would appreciate this information as soon as possible as I understand that we must have this done by the 21st.

I hear that the boys had a successful rush week at the house, and that things point to a fine year for the entire school.

Fraternally,

W:w

Eugene A. White
