

10-5-37

Dear Mr Allen.

Well here I am writing you, telling you my sorrows. I don't seem to like it down here. and I wished I had gone to K.O., but I didn't. They always say experience is the best teacher, but what a teacher. If I could leave here tonight and come to K.O. I would. I remember you said I should stay in my own state, but I was too dumb to listen then, I am also beginning to believe there is a lot of truth in what you said about if you want to work in South, go south, but this is no place for me. It rains all the time + it also is too hot.

How is the K.O. football team getting along? I hope it has a successful season. I would like to get some information about my eligable at K.O. If I came up this next semester, should I play in any Freshman games? Would you give me the same job ~~and~~ let me work out my room + board?
