

#2 Mr. T. L. Chisholm
June 3, 1937

I have been to quite a little trouble in getting the information you desire to protect your interests on this patent, and perhaps you would be willing to make some reciprocal agreement whereby you could have one of your customers furnish us with a number of the hooded jackets, or some suitable compensation.

I expect to be in and out of Lawrence practically all of the summer, aside from the trip to Culver, and from August 16 to 21, when I have a summer coaching school at Spirit Lake, Iowa. Outside of these two trips, I shall probably be in Lawrence most of the time. Anytime that you find it possible to be here, I shall be happy to have a visit with you.

Just as soon as the information is received from Lowe & Campbell, I will gladly send it on to you.

Sincerely yours,

PCA:CS

Director.
