No. 202—"Phog" Allen Official Intercollegiate Basket Ball

THE  
"PHOG" ALLEN  
BASKET BALL  
WAS THE  
OFFICIAL  
BALL OF  
THE 1927  
NATIONAL A. A. U.  
CHAMPIONSHIPS

DR. FORREST C. ALLEN  
Athletic Dir. and Basket Ball Coach,  
University of Kansas

## THE L&C "PHOG" ALLEN OFFICIAL BASKET BALL

Valve Type—Double Lace—Double Lined—Balanced

No. 202—The "Phog" Allen basket ball is the direct result of our own manufacturing ideas coupled with the experience and advice of this famous coach. Dr. Allen advocates the use of a ball with a lace—there is an actual advantage, he says, in such a ball and he readily demonstrates the value of this lace in passing and free-throwing. His teams have won six successive Missouri Valley Championships and he is unquestionably one of the outstanding coaches of the country. This ball has had a thorough try-out and was adopted and used successfully in the 1927 National A. A. U. Championships. It is a valve type ball of the highest quality pebbled grain leather with the famous two-ply or double canvas lining, a positive assurance against stretching and a guarantee of durability. The valve is located opposite the lace, giving perfect balance, and is countersunk so that there is no dead spot at this point. A black and red double lace of leather is a distinctive feature used only in this ball. The construction is such that this lace is not prominent enough to cause variations in speed and direction of rebounds. This double lace—patented—brings the lips of the opening together evenly and perfectly so there is no cross pull as in the single lace. The ball comes ready laced and can be inflated or deflated through the valve in a few moments. Thirteen pounds pressure is correct. Price.....\$18.00

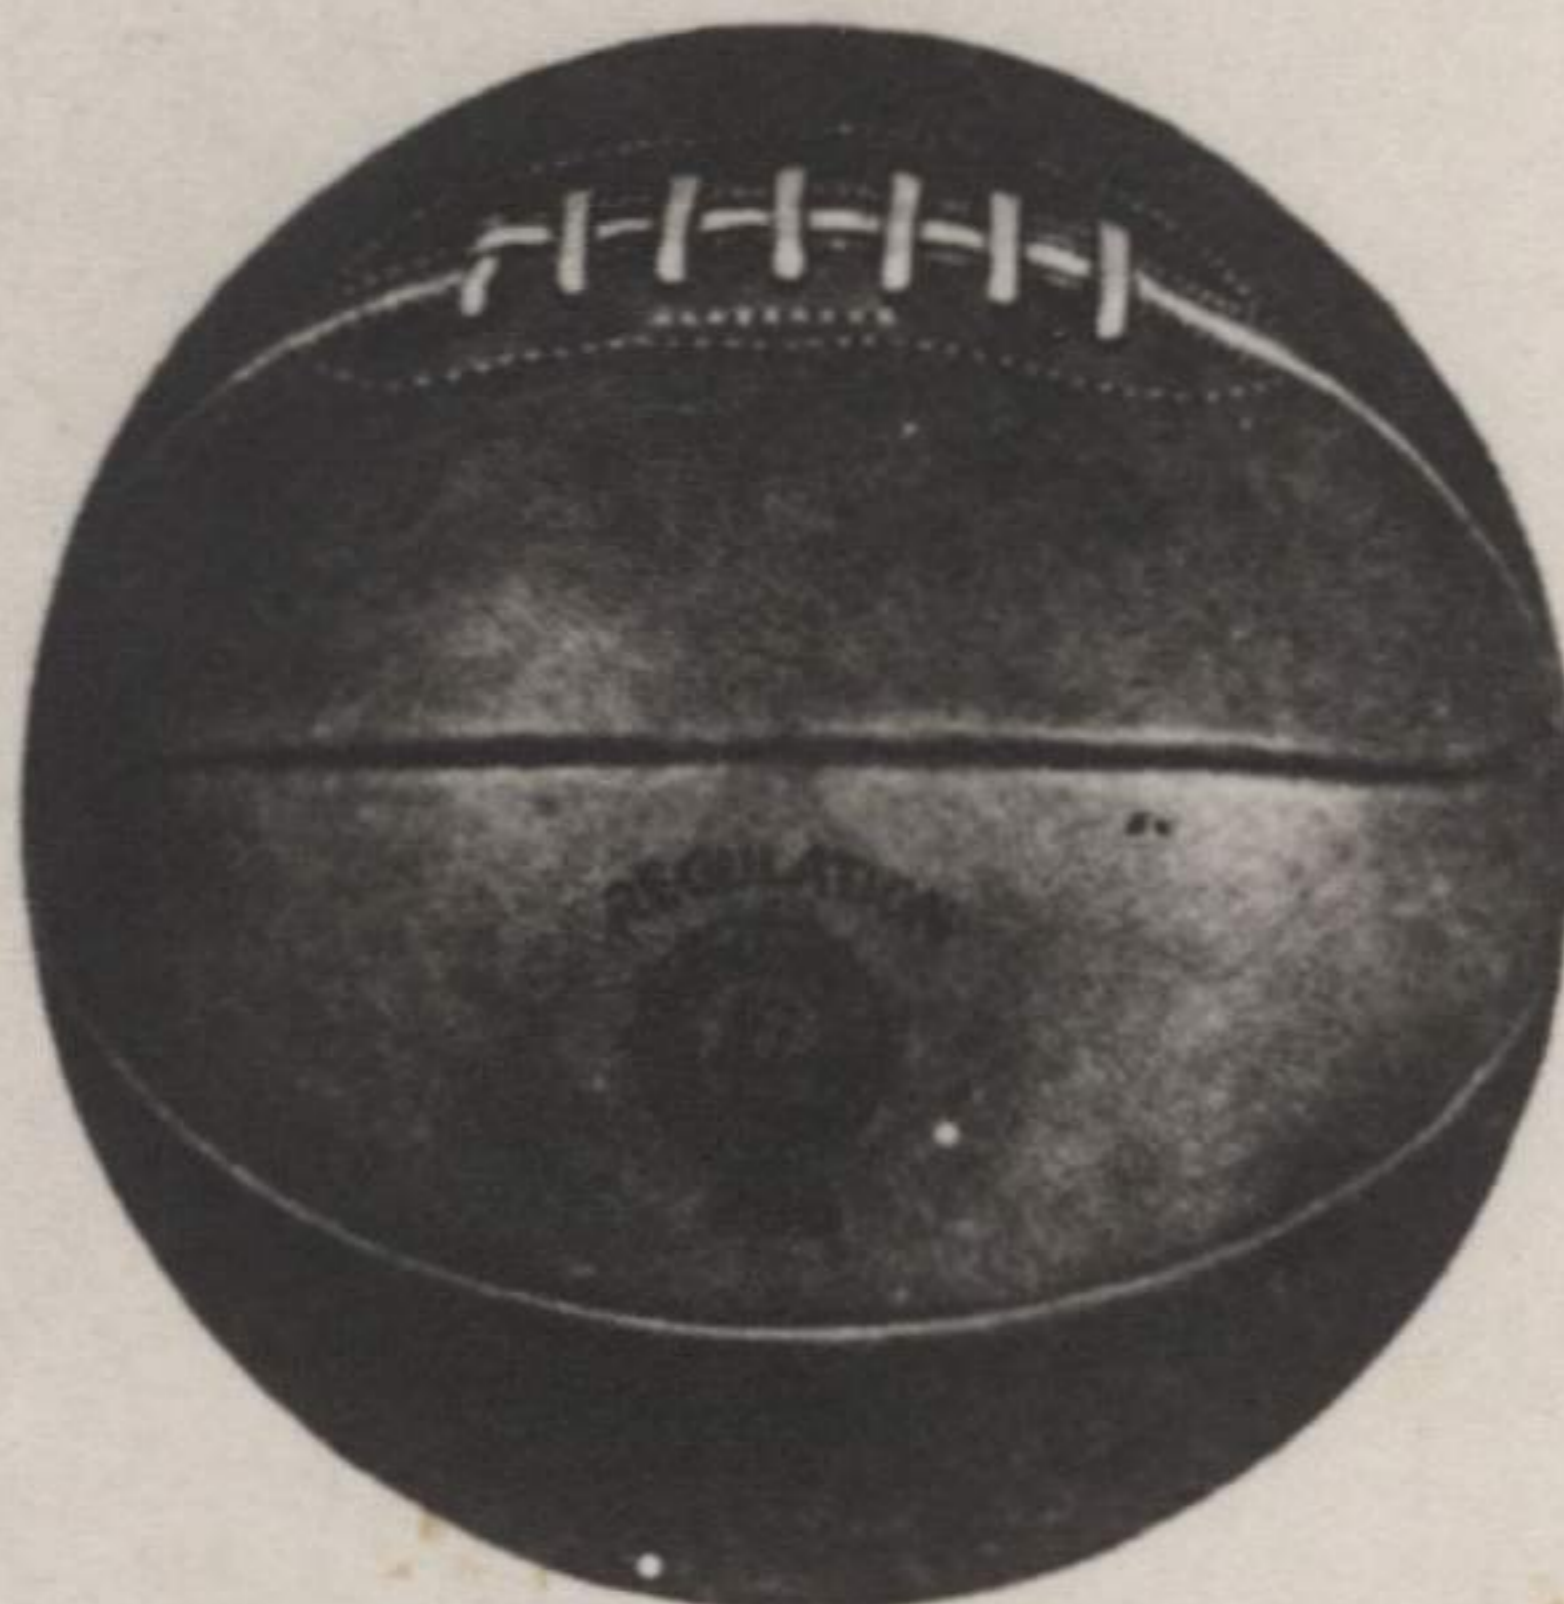

No. 200—Official

## L&C DOUBLE LINED OFFICIAL BASKET BALL

Holds Its Shape and Excels in Durability

No. 200—This ball has been our leader for several years and still would be except for the advent of the valve bladder. Many coaches still prefer the old style stem bladder and the regulation rawhide lace as used in the ball. It is the same quality as the No. 202 above and is official in every sense of the word. It comes complete with best grade bladder, rawhide lace and lacing needle. Price.....\$15.00

No. 206—Regulation

## L&C REGULATION VALVE BASKET BALL

No. 206—A ready laced, valve basket ball at a popular price. This ball is guaranteed to meet official requirements in size and weight. It is convincing proof that a regulation article of this kind can be produced at considerably less than the usual "official price." It is made of the best quality pebble grain leather and we do not hesitate to recommend it for general use and to urge its adoption especially as a practice ball. Complete with best bladder, lace and needle. Price.....\$12.00

No. 203—Regulation

## L&C REGULATION BASKET BALL

No. 203—The same ball as the No. 206 above, but made with the old style stem bladder. Complete with bladder, leather lace and lacing needle. Price.....\$10.00
