Hutchinson, Kansas.

Dear Mr. White:

Your letter was very logical and convincing to me. I am very sure that you have the law on your side, and if you keep a "lip upper stiff" with the powers that be you will win your point.

If I were a lawyer I would see that it would be very necessary to fight this time, because it would be four years of excessive charges if you do not win now.

I appreciate your refraining from mentioning names.

You can rest assured that T. P. Jr., T. B. and Eugene A. have my moral as well as friendly support.

Fraternally,
