My dear Dr. Allen:-

Perhaps I overlooked inviting some of the very important men who **work** with you and the team. Of course I would like to have Gianangelo and Dees and any other of the boys who in any way have connections with the athletics of Kansas University. Will you please convey my personal invitation to these two men and others as well. You might invite Horace Mason to come with you.

I hope also that Plumly and the freshmen will be with you.

Most cordially,
