

CLEVELAND CLINIC HOSPITAL

2045 East 90th Street

CLEVELAND, OHIO

In that short time my white blood count dropped to 1900 and my red blood count fell off a million. I could hardly walk when I arrived. I've sure taken a lot of punishment since being here - it includes drilling a hole in my sternum among other things. I have had several blood transfusions and am feeling better and hope to return home next week.

Fraternally
