

March 31, 1938.

Mr. George M. Parker,
Southwestern College,
Winfield, Kansas.

Dear Mr. Parker:

Mr. Elbel has referred your letter of March 28 to this office for reply.

We are offering this summer a three-hour course in Physical Education which gives Graduate credit. The course is Tests and Measurements in Physical Education, which will be taught by Dr. V. W. Lapp. There will also be undergraduate courses in Physical Education taught this summer.

We are not yet able to offer a Master's degree in Physical Education, but hope to be able to do so soon. Our graduate course this summer is the beginning of such a program.

If you have any further questions I shall be glad to hear from you again. I trust you may be able to enroll with us this summer.

Sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.
