

- (15) Have you ever heard of goal-tending in high school basketball?
- (16) Does the fact that the basketball committee also represents the YMCA, the high schools and the Canadian associations mitigate against the committee's adopting suggested rules changes made by college coaches who, after all, are just one of five groups the big committee represents? For example, ~~is~~ is there any way the high schools can influence rules changes?
- (17) What is your objection to the proposed change of fining giants a field goal when they touch a try-for-goal on its downward arc before it hits the ring or the backboard?
- (18) Was your 12-foot goal proposal the first proposal ever made, that you know of, for doing something about the tall player?
