Kansas Health and Physical Education Association

First Council Meeting- Hotel McCourt, McPherson, Kans. October 1, 1938

Agenda

1. Meeting called to order -- roll call
2. Secretary's minutes
3. Treasurer's report
4. Appointment of Sec.Treas.
5. Unfinished business:
   A. Association representative on K.S.T.A. Program Com.
6. Committee Reports:
   A. Demonstrations--Miss McCullough
   B. Curriculum
   C. Delegates to District Convention -Mr. Mifflin
      -Miss Lyman
      -Mr. Henre
      " " National " -Mr. Kauffman
   D. Precedents--Mr. Washburn, Mr. Dittemore
7. New Business:
   A. Change of name "Kansas Association of Health, Physical Education and Recreation"
   B. Approval of budget for 1938-39
   C. 1938-39 Publicity Plans--Mr. Henre (Newspapers & Magazines)
   D. 1938-39 " " --Mr. Allen (Radio)
   E. 1938-39 Membership Plans--Mr. Shenk
      (Announce names of Asso. Rep.)
   F. 1938-39 Bulletin Plans--Mr. Washburn
      (suggestions for improvement)
   G. Suggestions for Asso. Program 1938-39
   H. Appointment of Committees
   I. Place and date of next meeting--December 3.

<u>Convention Plans</u>.

1. Date and place.....March 24-25, Hotel McCourt?
2. Convention Budget.
3. Suggestions for speakers; Health--Physical Education--Recreation.
4. Convention Manager--Miss Hirni--Facilities, hotel rates, etc.
5. Appointment of Convention Committees. (Local)

Council Members--K.H.& P.E.A.

There will be a meeting of the Council at Hotel McCourt, McPherson, Kansas at 10 a.m. Saturday, October 1.

A complete representation is important.

Yours truly,

Hazel Cave
Acting Sec.-Treas.

September 26, 1938.

Miss Hazel Cave,
Kansas State Teachers College,
Pittsburg, Kansas.

Dear Miss Cave:

Pardon my delay in answering your notice of September 16 calling attention to the meeting of the Council of the Kansas Health and Physical Education Association at the Hotel McCourt, McPherson, Kansas, on October 1, at ten o'clock. I expect to be there at that time.

Very sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.

September 26, 1933.

Miss Helen G. Saum,
Department of Physical Education,
Kansas State College,
Manhattan, Kansas.

Dear Miss Saum:

Pardon my delay in answering your communication of September 19.

I will be present at the meeting which is called for ten o'clock Saturday morning, October first, at the Hotel McCourt, McPherson, Kansas.

We will have several broadcasts before November 4 and 5, and will be sure to announce the Health and Physical Education Roundtable meetings at the various convention cities. Thank you for giving me the names of the chairmen of the various districts.

Very sincerely yours,

FCA:AH

Director of Physical Education,
Varsity Basketball Coach.

May 19, 1938.

Miss Helen C. Saum,
Department of Physical Education,
Kansas State College,
Manhattan, Kansas.

Dear Miss Saum:

I am just now leaving for Omaga where I deliver a commencement address this evening, and then I drive on to Lincoln, Nebraska, for the Big Six Conference meet at which time we arrange our basketball schedule and other conference details.

However, I wish to let you know that I have received the radio file sent to me by Miss Hill, but frankly there doesn't seem to be much in it. I will be very happy to cooperate with Mr. Merle Henre, whom I know very well. He is a fine-spirited fellow, and I that we will be able to get lots of good work done together.

Yes, indeed, I will be very happy to use the platform of the National Physical Education Association as a means of informing the laymen of Kansas what is meant by the term "Health and Physical Education".

I will write you in the very near future regarding my idea of the promotion of the radio programs. I plan to get together with Mr. Vernon Smith, manager of station WREN and ask him to get the names of all the important stations located in college towns. Then I had hoped to get a local chairman there to broadcast during each week subjects that will all tie in with the entire state radio broadcast. Of course, I will admit that is a sizeable job, but if we can get a part of the station time each week to do this we will certainly cover the state in a very thorough way.

Perhaps I had better wait until I get back and write you more then, but I believe that we will be able to do something constructive along this line.

Thank you very much for your good letter. I assure you it will be a pleasure to cooperate with you. I do appreciate your suggestions , and will want anything that you have from time to time. As president, many things will occur to you that in my existence as an administrator will not come up so prominently as they will to you, so shoot every good idea that you have to me.

Yes, I did receive the Bulletins, for which I thank you. They had been sent to my home, 801 Louisiana Street, and I am sorry to say there were so many periodicals coming in that they had been considered along with a lot of second class mail and had never gotten to my attention. That was my own fault. Mr. Washburn sent some of the Bulletins to my office. Thank you very much for your help.

Sincerely yours,

FCA:AH

Director of Physical Education,
Varsity Basketball Coach.

October 4, 1938.

Miss Elizabeth Dunkel,
Department of Physical Education,
University of Kansas.

Dear Miss Dunkel:

I am sending you a copy of a letter that I received from Miss Saum on May 18, 1938. I think she has very good ideas.

The next important thing that I believe we should think of would be to bring the Physical Education and Health program before the intermediate pupils of the schools. Of course, the program would of necessity be presented in a way that would be attractive to the parents of these children in the intermediate grades.

And then the next move would be toward interesting the high school people, and then the college, and fourthly, the people in the business and professional walks of life. This effort should be made to cover the entire range of activities and make the various groups feel very conscious of our program. For the older group I had thought of safety education, taking in the various walks and activities of life. For the intermediate group I would like to have your judgment as to how best we can appeal to them - whether in a semi-dramatic program, or something else.

For the boys of the intermediate group I am of the opinion that the appeal through the more heroic endeavors is the way to hook up their interest. This, of course, goes for the boys of the high school, as well as a certain group in college although this latter group is much smaller.

I am especially appealing to you to give me the woman's angle as to the presentation of this subject over the air.

Of course, we will want to mention the Physical Education Round Tables and the state physical education meeting. All of those things that have to do with our set up I want continually to refer to but I do not want so much repetition that it will be monotonous.

I wrote Miss Saum in July and asked for the radio stations located in college towns, and I am sending these to you so that you will see what I have planned in these towns. I am hoping to appoint one woman and one man from each college faculty. Or, if I cannot get them from the college faculty, I will take them from the high school. One week the woman will put on the program and if she desires it, the man will collaborate with her, or she may use women in presenting her subject. The next week the man will have charge of the program and it will be up to him to choose his collaborator. By this method we will have two programs a month by the woman and two by the man.

In a general way we will outline the subject, but the material must be worked up by the speakers. We will, of course, want them to submit this material to us before it is given, but I doubt whether I will be able to get too much of that ahead of time, but I am asking for copies of all of it when it is presented if it is impossible to get it to me ahead of time. By this method we will accumulate a large radio file and it should be helpful for our successors the following year.

I asked Miss Saum to give me a list of people in the high schools in towns in which radio stations are located. This obtains where there are no colleges located in the specified town. I hope to follow the same procedure in regard to having the high school people do similar work to what the college people are asked to do.

I feel that by this method we should get an anastomosis of our physical education and health information so that there will be no part of the state untouched by such a program.

I have set aside Thursday morning, October 6, from 10:30 to 12 so that we can work on such an outline.

My first program on KFKU in the series "Physical Education for Health" will be on October 13, 6 to 6:15 p.m., and I would be delighted to have you collaborate with me on that program. It is my notion that we could use the suggestion of Miss Saum by incorporating the platform of the National Physical Education Association as a means of informing laymen of Kansas what is meant by the term "health and physical education".

Thank you in advance for your kindly cooperation.

Very cordially yours,

Director of Physical Education,
Varsity Basketball Coach.

FCA:AH

July 9, 1938.

Mr. Vernon H. Smith,
WREN Building,
Lawrence, Kansas.

Dear "Bing":

Thank you very much for your good letter of the 7th instant in which you give me the list of college towns in Kansas where radio stations are located.

I am wondering if you will also be kind enough to give me the list of radio stations other than those in college towns. I thought it might be possible to pick out some towns that have large high schools in them. Then I thought we could prevail upon some of the directors of physical education in these high schools to give health and physical education speeches throughout the year. I will appreciate it if you will be kind enough to mail this list to me.

Some time soon I want to drop down and have the benefit of your advice on my health and physical education program for this winter. I appreciate your kindly cooperation.

With every good wish, I am

Very sincerely yours,

FCA:AH

Director of Physical Education,
Varsity Basketball Coach.

Sept. 19th, 1938.

Dr. F.C.Allen.
University of Kansas,
Lawrence, Kansas.

Dear Dr. Allen;

The first council meeting of the K.H.&.P.E.A. will be held at the Hotel McCourt, McPherson on Saturday, Oct. 1st at 10 oclock.

For that meeting, will you please give a report on the progress of the Radio Publicity and the plans you have for the year? In going through the files, I found a radio report made by Miss Hatlestad several years ago, which has some good ideas. I am sending it to you and will you please put it in the Radio File to be handed on to the next chairman?

The plans, about which you wrote me in May, sounded fine - I hope you have been able to do them.

If you will have any broadcasts before the Kansas State Teachers Meetings, November 4-5, it might be good publicity to announce that there are "Health and Physical Education Round Table" meetings at all convention cities -the chairmen are as follows;

Kansas City -T.M.Evans, 1414 N.22, Kansas City, Ks.
Topeka - Health and P.E. Josephine Young, Junction City High Sch.
- Phys. Edu.Men -Lud Fisher, Atchinson
- Phys. Edu. Women -Katherine Geyer, K.S.C.Manhattan
-Nurses -Ada S.Callahan, Junction City
Hays -Leroy Updyke, Hays High School
Salina -H.R.Weller, Del[illegible]s
Garden City -Otis L. Darner, [illegible]den City
Hutchinson -Phys.Edu.Men-Sup[illegible]. Eric Tebow, Harper
-Phys. Edu. Women -Pauline Stanley, Kingman
Pittsburg -Fritz Snodgrass, 315 E.Quincy, Pittsburg.

By writing these people who probably could get their programs and speakers.

If you find it impossible to attend the council meeting at McPherson, will you please send your report to me and I'LL see that it is read to the council.

Sincerely yours,
Helen G. Saum

UNIVERSITY OF KANSAS NEWSLETTER

Published weekly by the University of Kansas. Admitted as second class matter at the postoffice at Lawrence, Kansas, May 31, 1919, under the act of August 24, 1912. This number edited by Harold G. Ingham, Director of Extension Division.

VOL. XXXVIII LAWRENCE, KANSAS, SEPTEMBER 24, 1938 NO. 1

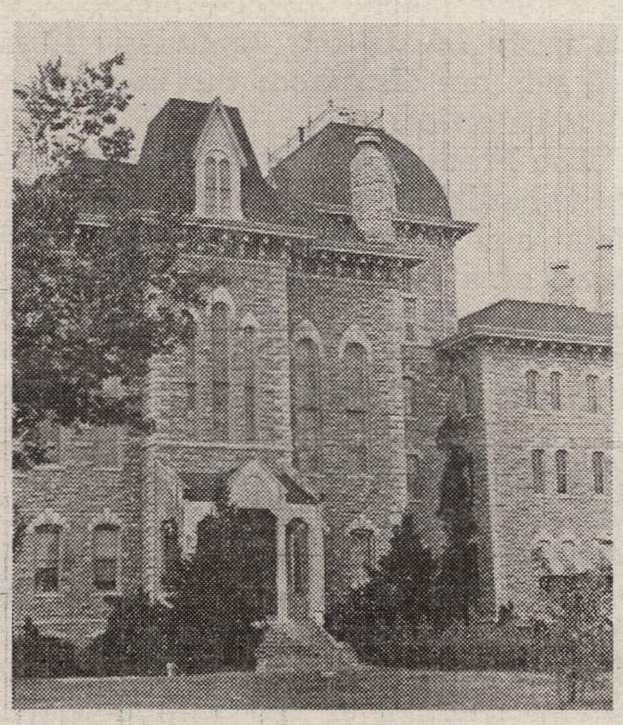
High Schools to Debate American Foreign Policy

In view of the unsettled conditions in the Orient and in nearly all parts of Europe, the high school debate question this year is one of unusual interest and vital importance. The proposal "that the United States should establish an alliance with Great Britain" challenges the immediate interest of every individual, student debaters and adults alike. It possesses the additional challenge that, with almost daily changes in the political situation in Central Europe, additional facts are developing constantly to affect the validity of both affirmative and negative arguments on this proposition. Since the average citizen has given but little thought to our foreign policy, this topic projects the high school debater into a field of information which he has not previously explored.

According to the present plans, the interscholastic debate contests will be conducted on exactly the same basis as last year. The work will be administered for the High School Activities Association by the Forensic Committee, of which Commissioner E. A. Thomas is Chairman, with Mr. Ingham, Director of the University Extension Division, serving as State Director. The forensic activities, both debate and extempore speaking, will be promoted and organized in each of the twelve districts of the state by the district director of forensic contests. This list of directors is as follows:

Dist.	Name	City
1	Supt. G. A. Swift	Holton
2	Prin. G. E. Watkins	Garnett
3	Prin. W. W. Bass	Chanute
4	Supt. J. H. Richart	Reading
5	Supt. D. E. Wolgast	Marysville
6	Supt. L. H. Brewster	Osborne
7	Supt. F. F. Herr	Medicine Lodge
8	Prin. Herbert C. Hawk	Winfield

(Continued on page 3)



FRASER HALL—The home of the Extension Division.

Greetings

September and the opening of another school year have signalized the departure of youth from practically every community in the land for enrollment in some college, technical or professional school. Colleges and universities in every part of the country are reporting increases in enrollment. This steady growth of the student bodies of our institutions of higher learning is indicative of a consciousness of the need for better training to enable youth to understand and to cope with the ever-increasing complexities of our modern social and economic structure.

But this consciousness is not limited to youth alone. Adults in all walks of life and of all ages, from the boy or girl who has left the halls of learning to join the ranks of wage-earners, or to enter upon a professional career, to the parent or grandparent who has become aware of possibilities in personal development and self-education through the orderly use of leisure time, are taking advantage of existing opportunities for further study and training. To this large and rapidly increasing group of ambitious adults, the University Extension Division sends its greetings with the hope that it may be of some service in helping to satisfy the desire for additional educational opportunities.

In this issue of the Newsletter will be found announcements and information concerning various services which the University of Kansas offers to individuals and groups throughout the state. Additional services will be mentioned or discussed in subsequent issues. Individuals and organizations are invited to make the widest possible use of the University Extension Division in promoting both formal and informal educational activities.

Harold G. Ingham

Director, Extension Division

KFKU Resumes Broadcasting

The station identification "This is Station KFKU, the University of Kansas, at Lawrence," on September 26, at 6 o'clock, will introduce the opening program in the fourteenth consecutive year of broadcasting from the university's own radio station.

Station KFKU will utilize only its evening periods until the second week in October when it will resume the afternoon broadcasting of the **School of the Air**, radio lessons presented primarily as a supplement to the courses given in secondary schools and junior colleges.

School of the Air

Two new radio courses are included in the School of the Air schedule for this year. On Tuesday afternoons at 2:45, beginning October 25, Professor J. J. Kistler of the Journalism Department and Superintendent of Journalism Press, will offer a series of discussions on the History and Development of Printing, from the earliest beginnings to the present time. The different periods and their influence and noted names in

Visual Instruction Bureau Prepares Additional Instructional Aids for Schools

In Kansas and elsewhere the coming of September means the return of school days, and in the Bureau of Visual Instruction at the University of Kansas it means the opening of another year to be spent serving the visual education needs of many schools.

That these visual instruction needs are increasing in scope and number is more apparent each year, which is another way of saying that more teachers, superintendents and school boards are realizing the excellent services that visual aids can give and are making such instructional helps an integral part of their school systems.

The Bureau at Kansas University is well equipped to assist any school or other institution with its visual instruction program and to provide the visual aids desired. Many requests are filled each year from its extensive motion picture library of both silent and sound films and from the glass slide library.

While the rental of motion pictures makes up a large part of the business of the Bureau of Visual Instruction, the glass slide service is an important part of the work and the use of glass slide sets for classroom teaching is extensive. More than 200 slide sets covering a wide range of subject matter are available. With every set ordered, a lecture is sent which contains information for general background and for each particular slide. From these notes the teacher may select material for classroom discussion and study.

The library is improved and enlarged each year by revision of sets already owned and by purchase of new slides arranged into sets. The following four sets reproduced from "The Pageant of America," published by the Yale University Press, are now ready for use.

"The Advancing Frontier"—a series of seven maps showing the expansion of the United States from 1790 to 1900, drawn for the Pageant of America by Gregor Noetzel, American Geographical Society. "Art in America"—a set of 33 slides showing the works of 31 American artists, including such men as Copley, Stuart, Sargent, La Farge, Taft, and Saint-Gaudens in painting, etching, stained-glass art, and sculpture. "Communication"—15 slides tracing the development of communication from picture-writing to the wireless of Marconi, and "Indians of America"—showing various types of dress, dwellings, and activities of the aboriginal Americans, along with a map indicating the distribution of the early tribes.

Additional sets which have been acquired recently cover a variety of subjects which will be found helpful in many fields of primary and secondary school work.

"Coal and Oil" gives a brief description of those industries with 9 slides on coal and 5 on oil. "Constitution and New Government" depicts incidents in the early life of our republic. These two sets are also from the Pageant of America series.

"The Frontier Woman" pictures some of the hardships of life on the early Virginia and Tennessee frontiers, with views of a fort, a settler's cabin, and some early leaders. How the people of various sections of Germany are dressed is shown in "German Costumes." The sets on "Goethe" and "Wagner" present interesting notes from the lives of Germany's great poet and composer, respectively.

The series of "Maps" includes the world, the hemispheres, the continents, Mexico, Italy, the United States, and several sections of the United States. The handling of ocean freight is described in the set of that title. "Plywood" illustrates the manufacture and application of that product. "Safety First" demonstrates rules of safety for school children on the streets and playgrounds. "Swiss Schools and Homes" presents scenes of life in Switzerland. How water is brought from great distances to our large cities is explained in "Water via Aqueducts."

Further particulars concerning these slides and other visual aids may be had from the Bureau of Visual Instruction, Extension Division.

List of Entertainment Material Assembled

A supplement, listing titles lately added to the existing stock of plays, readings, and miscellaneous entertainment material is now available from the Bureau of General Information, University of Kansas Extension Division.

Approximately four hundred plays of various types are listed. These are classified in a convenient manner. A few of the three-act and many of the one-act plays are in collections, but the major portion of these may be borrowed separately.

The Readings section of the supplement lists a number of cuttings which have been made for the student interested in contest, assembly, or miscellaneous entertainment. A few readings have been added for grade schools.

Original sketches of hand-tinted costume plates now number forty-eight. Twelve plates represent well-known characters of fantasy, each sketch showing some type of costume as influenced by history. The thirty-six plates showing American costume, are divided into decades from the early seventeen hundreds to the early nineteen hundreds.

Books and leaflets on Puppets and Marionettes have been added. These cover every phase of the puppet project from mechanical construction of the doll to the written play with instruction for its production. Many of these books are profusely illustrated.

Short radio plays are being added from time to time. The majority of these plays are of an educational nature and make interesting program material even where radio facilities are not available.

Numerous pamphlets dealing with various phases of the Speech Arts are now available. These, of course, are for loans, but since the majority may be procured free of charge from the publisher, it is well for the director to procure the loan, make his selection, then secure the desired pamphlets needed for a handy and helpful "Vertical File" for the school library.

Pamphlets in the above mentioned collection deal with the following subjects: contests, costume, lighting, pantomime, play-writing, production, royalty questions, scenery, stage craft, and organization for drama interests.

Copies of the School and Community Drama Service bulletin, and its supplement are free. Other materials mentioned in the above article are available for loans.

World's Champion to Lecture

Glenn Cunningham, world's greatest miler and one of the most amazing performers in athletic history, has been added to the lecture staff of the University of Kansas Lecture Course Bureau. Recently awarded his doctor's degree in Physical Education by New York University and one of the most consistent athletes in American collegiate annals, the Kansas flier's personal story should be a source of great inspiration to high school boys.

He will use for his lecture subjects this winter: "Running Around the World"; "Fit to Win"; "Can You Take It?"; "Athletics and Life"; and "Highlights of the 1936 Olympics."

The Package Library And Current Affairs

A Supplement to the Newspaper and the Text

It has recently been very pertinently observed by one of the foreign radio commentators that the man who depends upon the newspaper only to keep in touch with the affairs of the day lives in the world of 1914, compared with the man who, through the radio, can "tune in" almost on the event itself, or hear the very words of the dictator or diplomat who pronounces a dictum of world significance.

Likewise the student or class which must depend solely upon text books or supplementary books in their study and evaluation of international and national affairs is at a decided disadvantage. In between the text and the daily newspaper there is a very valuable and important aid to the student in the condensed surveys and timely discussions which are presented in weekly and monthly magazines. The analytical discussion, which varies in its length and inclusiveness, may pause to interpret the affairs of today in the light of history and to analyze issues or survey the progress of events, all of which help to provide an **understanding** of events which are only **reported** in the daily press.

The element of supplementary up-to-dateness, characteristic of the magazine article, is also the especial property of the package library. The term **package library** is a very elastic one, subject to various interpretations. However, it may be generally defined as a collection of reference materials on a single subject—including, alone or in part, magazine and newspaper articles, and pamphlets, supplemented with books when scarcity of other material or the peculiar nature of the subject requires.

The University, in offering an extension library service to the state, has attempted to meet a particular need in choosing the package library medium with its especial emphasis upon currently published materials. Special files of 200 magazines are received regularly for this work and these are continuously supplemented with new pamphlets, for just as the magazine article is a step between the newspaper and the book text, so the pamphlet stands between the magazine article and book text.

The Bureau of General Information has no complete listing of the subjects upon which package libraries are available—such a list would need revising daily. It may be assumed by the Kansas reader, student or teacher, however, that **any subject** may be submitted to the Bureau with the probability that **some** material will be available from the Bureau's vertical files, new magazine stacks, University Library, or when necessary and possible, acquired by the Bureau for the borrower from another source.

Extension Classes in Demand

The Extension Division has just announced a list of 14 extension classes to be conducted in Kansas City, Missouri, for the teachers and social workers of greater Kansas City. University professors meet these classes personally and, if the number of inquiries coming to the extension class bureau is an indication, classes this fall will be large.

Extension classes meet once each week for a period of one hour and 40 minutes. Classes carrying three hours of university credit meet 23 times and the two hour courses meet 16 times. These classes are held "off campus" and the instructor meets the class rather than the group coming to the university to meet with the instructor. While it is not possible to furnish instructors for all the classes requested, it is possible to arrange classes where a group of at least 15 prospective students request some specific course.

Announce New Courses

During the summer, in response to various demands, the Bureau of Correspondence Study has arranged with the different departments of the University for the preparation of the following college courses:

Principles of Geography, 3 hours; Property Insurance, 2 hours; English Composition 5 (sophomore), 3 hours; Cost Accounting, 3 hours; Governmental and Institutional Accounting, 2 hours; Standards of Living and Family Finance, 2 hours; German Composition 8, 3 hours; and Schiller's Dramas, 2 hours.

English Composition 5 is recommended to all interested in advanced composition. The course in Principles of Geography is one of the required courses for the thirty and sixty hour elementary school certificates.

In addition to these new courses, sixteen old courses have been revised to parallel with the resident courses, and the newer texts.

KFKU Resume Broadcasts

(Continued from page 1)

the graphic arts will be discussed as well as present-day methods of printing.

Miss Helen Rhoda Hoopes, Assistant Professor in English, will give a series of talks about **Books and Reading** each Thursday afternoon at 2:45. New books will be introduced, old books re-introduced. There will be discussion of persons, places and things spoken of in books. In general, the topics will be of current interest, and the talks designed as a guide to readers.

Lessons in French, Spanish, and German, featured from KFKU for several years, will be offered again this year. The hours for these broadcasts may be found in the detailed schedule of KFKU.

Debate discussions and round-tables on the debate question, to be given each Friday afternoon during October and November, will complete the **School of the Air** program.

New Programs Announced

Beginning the first Monday in October the Department of Political Science will provide for station KFKU a series of talks by way of interpreting the current political scene. The aim of this program will not be so much to report the current events as to relate to the significant background the news of political and social interest.

Another new feature from KFKU will be a series of open forum discussions on current topics of interest by some of our outstanding thinkers on the university campus. Each Thursday evening, from 9:30 to 10:00, three faculty members will take part in these round-table discussions. On Oct. 27, Ivan C. Crawford, Dean of the School of Engineering and Architecture, will lead a discussion on "Regional Planning in a Power Minded Age." The following week Fred J. Moreau, Dean of the School of Law, will conduct a group discussion on "Majority Rights and Liberty." The period on the second Thursday in November will be

6:00 The Background of the Current Political Scene.

KFKU Resume Broadcasts

(Continued from page 3)

devoted to an open forum about some pertinent phase in the newspaper field, led by L. N. Flint, Chairman of the Journalism Department.

Popular Programs Continued

Mr. Calderwood's program of **Readings**, broadcast at 6 o'clock on the first and third Tuesdays of each month, will be chosen from all forms and fields of literature, with special emphasis on poetry. Frequently the readings will have a background of appropriate music—a feature which was popular when the programs were given last year. As heretofore, Mr. Calderwood will give "request" readings suggested by members of his radio audience.

A series of plays, representative of each of the important eras of dramatic literature, will be presented by the Department of Speech and Dramatic Art on the second Tuesday of each month, at 6 o'clock. The first broadcast will be "Antigone of Sophocles" to be followed by plays from the medieval, pre-Elizabethan, Commedia del Arte, Shakespearian, seventeenth century, nineteenth century melodramatic and the modern eras.

The purpose of the broadcasts by the Department of Physical Education of the University on "Physical Education for Health" will be to serve the citizens of the state of Kansas by giving adequate information on the basic habits and practices to maintain mental, emotional and bodily vigor. These programs will be presented each Thursday at 6 o'clock, and will be of particular interest to the youth of high school and college age, as well as those people of later years who engage in less strenuous activities.

RADIO DEBATES AND DISCUSSIONS

October 14, 2:30-3:00 p.m. Analysis and Interpretation of the Question, Professor E. C. Buehler.

October 21 2:30-3:00 p.m. A Few Comments Concerning Training High School Debaters, Professor E. C. Buehler.

October 28, 2:30-3:00 p.m. Roundtable Discussion, led by Professor Buehler and Members of the Kansas University Debate Squad.

November 4, 2:30-3:00 p.m. Roundtable Discussion.

Novemeber 11, 2:30-3:00 p.m. Interview, B. W. Maxwell, Chairman Political Science Department, Washburn, and E. C. Buehler, Director of Forensics, University of Kansas.

November (date to be arranged) University of Kansas vs. University of Missouri. "Resolved: That the United States Should Establish an Alliance with Great Britian."

My dear Dr. Allen:

I am inclosing the names of the suggested representatives for handling the radio programs in case you need these before you receive the minutes.

Topeka - Mildred Huddleston, Topeka High School
Manhattan - Miss Katherine Geyer and Mr. L.P. Washburn, both of the college.
Pittsburg - Miss Hazel Cave, Kansas State Teachers College
Salina - Katherine Scheier (address unknown) and Earl Morrison, Salina High School
Kansas City - Merle Henre and Helen Barnett of Wyandotte School
Wichita - Oran Shearer (address above), Evelyn Hinton of Wichita University
Coffeyville - Bill Mifflin, Supervisor of Phys. Ed.
Garden City - Kenneth Brecheisen (presumably of the high school)
Abilene - Marvin Van Osdol, Superintendent of Schools
Hutchinson - Mary Lou Clark, 1215 N. Main, Hutchinson
Dodge City - Ralph Churchill (Probably of the high school)

I will appreciate notification as to any future corrections in this list.

Sincerely,

Hazel Cave

October 15, 1938.

Miss Hazel Cave,
Department of Physical Education,
Kansas State Teachers College,
Pittsburg, Kansas.

Dear Miss Cave:

I am wondering if you will be kind enough to send me the names of the people suggested at our meeting at McPherson, Kansas, for radio publicity. Miss Saum gave me the names of Miss Katherine Geyer for the women and Mr. Washburn for the men at Kansas State College.

I would appreciate it very much if you could send these names to me at your earliest convenience as I desire to get all my radio connections out over the state.

I am sending you a set-up for our department on our station KFKU. We go on the air each Thursday evening at 6 o'clock for 15 minutes. I expect to send this sort of an outline to all of the people whose names you will give me and ask them not to copy this list but rather to get ideas from it and submit me some articles that they will agree to give over the various radio stations.

I am also enclosing a copy of our first radio broadcast which occurred last Thursday evening.

With all good wishes, I am

Appreciatively yours,

Director of Physical Education,
Varsity Basketball Coach.

FCA:AH

To the Kansas Health and Physical Education Association:

As chairman of the Radio Publicity Committee for the year 1938-39, I desire to make the following report:

The following persons were asked to cooperate as members of this committee - Miss Mildred Huddleston, Topeka High school

Miss Katherine Geyer and Mr. L. P. Washburn, Kansas State College

Miss Hazel Cave, Kansas State Teachers College, Pittsburg

Miss Katherine Scheier and Mr. Earl Morrison, Salina High School

Mr. Merle Henre and Miss Helen Barnett of Wyandotte High School

Mr. Oran Shearer and Miss Evelyn Hinton, of Wichita

Mr. Wm. Mifflin, of Coffeyville

Mr. Kenneth Brecheisen, of Garden City

Mr. Marvin Van Osdol, Abilene

Miss Mary Lou Clark, Hutchinson

Mr. Ralph Churchill, Dodge City

On October 27, 1938, we sent a letter to each of these people setting forth the purpose and aim of our committee and asked that they make arrangements with their local radio stations for broadcasts in the interest of the Kansas Health and Physical Education Association. Not all of the above named persons were able to secure time on the air through their local stations on account of the commercial angle. However, we have secured time over stations KANS and KFH, Wichita, KSAC, Manhattan, KCKN, Kansas City, Kansas, and KFKU, Lawrence. Attached to this report will be found a list of the topics discussed .

Respectfully submitted,

Forrest C. Allen, Chairman,

Radio Publicity Committee, K.H.&P.E.A.

KANS.

THIS SIDE OF CARD IS FOR ADDRESS

Dr. F.C.Allen.

Director of Physical Education

University of Kansas,

Lawrence, Kansas.

March 16th, 1939.

Dear Dr. Allen;

The K.H.& P E. Convention. is just around the corner - hope you and Miss Hoover can bring a large group of majors along for the meetings. Will you report on the Radio Program at the Council Meeting on Friday, March 24 at 4 oclock If it is convenient for you, I would appreciate it, if you could remind Dean Schwegler of the dates of the meeting- just in case he has forgotten.

Will see you at McPherson -

Helen G. Saum.

Lawrence, Kansas
March 22, 1939

Miss Helen G. Saum, President,
Kansas Health and Physical Education Association,
Kansas State College,
Manhattan, Kansas.

Dear Miss Saum:

In the absence of Dr. Allen I am writing to acknowledge receipt of your card of March 16th, and to advise you that it will be impossible for Dr. Allen to attend the convention at McPherson on Friday and Saturday of this week.

Dr. Allen is at present in San Francisco where he has been attending the regional play-off of the N.C.A.A. basketball tournament. He is a member of the general committee in charge of this national tournament. He will return to Lawrence Friday afternoon just in time for a departmental budget conference, and will leave Friday night for Chicago to be in attendance at the meeting of the National Basketball Coaches Association held on March 25-27, and for the national N.C.A.A. basketball play-off on March 27. He regrets, of course, that it is impossible to be in McPherson, and asked me to let you know.

I am enclosing Dr. Allen's report as chairman of the Radio Publicity Committee.

I have reminded Dean Schwegler of his place on the program on Saturday afternoon, and he expects to be there in time. I believe his train arrives in McPherson at 2:30 p.m.

The members of our department are planning on taking a group of Physical Education majors, and I believe there will be a good representation from the University of Kansas.

Sincerely yours,

Secretary to Dr. F. C. Allen.
