We hope to see you in Columbia when your half club plays Missouri un gamary. My mife ask me to entend her personal regards to you Thanks in advance ifor. your kindness. Lucerely

I fouled out on you on the letter regarding Earl Price.

Mr. Quigley had been following up on the boys who were future prospects and with his aid we write the seniors. Mr. Quigley has an idea that if we start too early with these boys that many of them will get too self-conscious and he likes to handle these things in his own way. Of course, I am highly agreeable to working with him according to his plan. However, I can see the great value in a boy receiving a letter from a coach—the coach complimenting him on his fine work and keeping in touch in a friendly way with his efforts.

of my letter. I want you to know how mery much I appreciate your university loyalty; expecially when you go to the extent of checking up again on tardy correspondence by coaches. We certainly would be delighted to have Earl Price here at the University. The method that you are working on him is most commendable. The way you describe this boy I certainly know he is a dandy.

I have confidence in your powers of observation. With all good wishes, I am

Sincerely yours,

Director of Physical Educationk Varsity Basketball Coach

Dear Dr. Allen:

Just another note in regard to Earl Price, star Caldwell High School athlete. Hate to keep harping on the same note, but feel that he is an exceptionally fine prospect, and that K.U. cannot afford to let him get away.

Talked to him over the weekend, and he said that he had received a form from Athletic Director Quigley to be filled out. Gathered however that he has received no personal word from you as yet. I think such a letter would be particularly helpful in bringing him to Lawrence. As I told you previously, certain Kansas State alumni are attempting to interest him in attending that school.

Had the opportunity last Friday night of seeing him perform as the Caldwell team (with only three lettermen back from last year) upset the S.K.L. league-leaders and favorites, Anthony High School, 7 to 0. The boy did about everything that could possibly be done on the gridiron. He completed 11 of 14 passes (one of them for the lone touchdown of the game), intercepted a pass to stop Anthony's only serious threat, ripped the Anthony line apart for consistent gains on the ground, and tackled in a manner that reminded me of Ray Evans. He runs very fast for a big man, and has already mastered the knack of spinning as he goes thru the hole.

Also saw him play basketball last year, and he shows great promise in that sport.

I don't believe you would be making a mistake if you took exceptional interest in this boy. I have been following Arkansas Valley
football this fall, and have yet to see a boy in that fast circuit who
possesses Price's natural football talent.

An alumnus,

October 24, 1945 Mr. R. M. Kinnan Athletic Director Washington University Samint Louis, Missouri Dear Bob: You certainly have done Milton a great favor. He was lonely and did not know the people of St. Louis and what you. did was a tremdous pick-up in boosting his moral. Gosh: he is tickled pink with your courteous response and he is singing his graditude most highly. I will always feel indebted to you and assure you that if at any time I can do you a favor I will be glad too. You have been very nice. Dr. Forrest C. Allen Director of Physical Education University of Kansas Lawrence, Kansas

Dear Dr. Allen:

I enjoyed getting your letter very much, and immediately called your Son, Milton, on the phone. We had a nice talk and I sent him some tickets for the St. Louis University and Rolla School of Mines Game, last Friday night, which he said he intended to attend.

As soon as possible, we will have lunch together, although it is a long way down town for me and equally far for him to come out here. We will plan to get together as soon as is possible. He said that he felt he would be in St. Louis, for six months at least, and I have asked him to come out at any time and watch our practice.

Milton also spoke about doing some officiating, so I have put his name on our list of Officials, hoping that he will be able to work for us.

From the looks of our Schedule and comparing it with yours, it's going to be a difficult task to play each other this year. Let's hope that we can do so in the future. We are trying to build at present and you know what a job that is. I do want to send best wishes to you for another successful Basketball season.

After Milton and I have had an opportunity to visit, I will write you again. With kindest personal regards.

Sincerely yours,
