

October 10, 1944.

Dr. Russell Knappen,
Head of Geophysics Department,
Gulf Refining Company,
Tulsa, Oklahoma.

Dear Dr. Knappen:

Your and Mrs. Knappen's hospitality to the Allens was deeply appreciated, I assure you. I could write a full page expressing our genuine pleasure in seeing, visiting and dining with you good people.

I have already told many of your good friends in Lawrence how wonderful you and Mrs. Knappen were to us. If we had not lost so many professors with the human touch from Kansas we would be much better off athletically and otherwise. But it was good to renew old acquaintances, and I am sincerely trusting that we can have a get-together again soon. It was a delightful epoch in our tour in friendship's village.

I am sending you a Jayhawk Rebounds that I told you about. If you like it we will put you on the mailing list, and if you wish back numbers -- we have a few -- we will be glad to send them to you.

With all good wishes and appreciation to you and your good wife, I am

Very sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.
