Lt. L. B. Kappelman Hammond General Hospital Modesto, California

Dear Kap:

I was sure that you had gotten Rebounds Nos. 16 and 17, but for fear that you haven't I am mailing them out today to you. I have not written the Rebound 18 which was started on July 25. Mrs. Hulteen resigned her position July 1 to raise her family, and I have had two secretaries since. I dictated the first of the Rebound to my first secretary, but she left two weeks ago to have her mother operated on. She was to wire me the next day when she would return. I have not heard from her to this date, so I imagine the surgeon operated upon her. I trust that it was not fatal, but I have no way of knowing.

Francis was in last week and I had quite a visit with him. He brought me up to date on your operation, which your letter confirmed. He is looking fine and hopes to see you.

You will get a kick out of Englemen's crack about the Newton boys.

I was glad to learn of the Goal-Hi installments around your swimming pool.

I certainly will see that you get the next Rebound pronto as soon as we are able to get it out. With all good wishes to your complete and speedy recovery, I am

Sincerely yours,

Mr. J. E. Kissell, Portis, Kansas.

Dear Mr. Kissell:

I acknowledge receipt of your good letter of the 20th instant and was happy to get your many slants which you so interestingly wrote about. The game at Manhattan tonight will be an indicator of the real championship. If Iowa State wins I am afraid we are going to have more on our hands that we can take care of. They have the strongest Navy unit up there and with a big contingent of men, and I wouldn't be surprised if they have the power to do a pretty good job. On the other hand, the Kansas Aggies may take them. We will just waithand see, as we have to for all important events.

I do take The Outlook but I missed the article on the Methodist crusade. Yes, I am a Methodist, but you know I have had some of the same ideas regarding this undertaking. It looks to me as if many organizations are getting the money while getting is good. The whole thing did not strike a very responsive chord in me because it looked as if they were trying to get some money without doing the best job possible, as I viewed it. I took your letter home and Mrs. Allen and I read it, and she said she was going to get that paper and read it, although at the present time we have not subscribed - even though almost everybody else has.

Maybe the church is not losing any of its power, but somehow I have been wondering if we have at the present time a real vital group in the church that are doing things. Certainly it is a poor commentary on a fellow who doesn't contribute, but I would have no objection to giving my money, as I have on several different occasions this year and other years. We have about three different sets of contributions that we gsgularly give to the church, but personally I have felt that I would rather give money to the Red Gross and some of these things that are actually saving the lives of our boys than to give money to send other missionaries out. The success and qualifications of some I am not overly enthusiastic about. If these people in all of these countries do not want to be converted, I see no reasyn why we should force our religion upon them when they seem to be happier than many of our Christians are.

This at least will be a source for conversation some time when we meet in the future. I will also discuss the Kansas Aggie situation when I see you. It is too long to write, but altogether it is a very healthy situation. When Douglas MacArthur gets back, if he doesn't have more important things, we might put him in charge of unraveling the difficulties between the Kansas Aggies and the University.

DR. FC Allen, Lawrence, Kansas.

Dear Dr. Allen:

Been intending ever since saw you the other night there at HochAd. to write little to say that I enjoyed the game with the Can Saggies and also to say that I am sorry if, in the calls from Topkka, it was necessary for you to leave your bed. I do not know that it was, but might have been as the calls were delayed a while after I made them. Thanks greatly for the consideration and chance to visit even if briefly.

I had the thing (big6) all figured out a time or two but the games did not all come out as I had expected. You beat Okla. there on Hill little more than I had anticipated. Then all the while I was wary of that game at Manhattan as I that that some day the Aggs would beat KU there and I knew they would try mighty hard this time. I really on my dope sheet had you picked to win by a shade and I guess that is what you did.

I never did see a box score in any paper but of course got the score. Our Osborne county tourney was on at Alton that might and I tried to get the result to have it announced there at Alton. I finally got it but had difficulty in doing so. I called for athletic office and then for you and nobody seemed to know about it then (about 9:30) and so I called the bus station cafe and some fellow grouchily said he heard KU won 33 to 31. It was not till later that we learned of the ruckus there.

Even now I do not know much details as to what happened. Not much in the papers and the sport sheets are all much less dependable that formerly, so I just picked up what this one heard and that one heard and take it that State was rather a hard loser. I can readily see that they would want to win that game mighty much.

Party told me that said one who saw game told him, that it was a hot finish nobody could hear anything, not even the whistle of the officials and that all kinds of things took place the last few minutes -- that sidelines puched KU men near the line; that Agg players nearly tackled KU men; that the ref. lost his shirt, that you lost some good air from your tires; that a mob assembled, and so on and so forth. I judge part of it muct have been true.

I liked the way your men handled ball the night I was there but thot you did not have the scoring punch that KU has had in other years when there would be two or three men who could be counted on for maybe ten points. Reynolds has a twisting, squirmish action that one seldom sees and for a moment you almost lose sight of the ball.

I am hoping you can win the one at Ames, tho there is chance that IState might lose at Manhattan and also at Oklahoma. Also some slight chance Okla. will win the rest of them, so three of you may tieup.

I heard too, that there is a little friction among one or two of your men. I hope not, but if had to guess I am sure I could name them, and the only reason in the world I would do so, is just from some little observance among your men that night I was there. I hope same is not true, and that it has or will subside.

Did not intend to get onto the second page but I noted a rather hot artcile in a Lawrence paper lately, The Outlook, relative to the Methodist Crudade that is under way and taking you to be a "good" Methodist I wondred if you noticed it and if so what you that of it and wondered just why the writer put the item up that way.

Guess it makes very little difference but I had not that the Crusdae was to be anything of a political activity and feel that the object of the Crusade, that is the money raised for it, would be to follow the Good Lord rather more, and not too much religious following of the administration of the Hearsts or Dulles, Hull or any of those honorable gents.

The article was published about last of January or first of February.

Hope this finds you people and all of yours well and getting along. I see you have Red Cross again and also various activities on your hands. Your life has been kept busy enough so that when you cross over to the other shore, you can soft seats and golden streets up there and figure (enjoy) out some new defense for the fellows I hope will still be playing bBall in that land.

Glad to hear from you any time and if there were any who lost their life at Manhattan, I would like to know it. By the way, I thing I can pull enough strings to get McArthur and Nimitz back here to patrol the territory from Manhattan to Lawrence if necessary.

Kindest regards and I am Very Truly Y

Mrs. Betty Lou McF. Kendall 105 North Courtland Topeka, Kansas

Dear Betty Lou:

I am a little tardy in my acknowledgment in sending you the Jayhawk Rebounds. It seems every day when I was away from my desk I would think of the promise, then when I was at my desk other things would crowd me out; so today I am sending you one of the June 25 Rebounds.

I started Rebound No. 18 on July 25, but my secretary's mother took ill and she was called out of town; so I will wait for her return, which should be this week, to make another start on No. 18. I trust that although a rather belated in its arrival, that you will find some interesting reminders of the old Jayhawk's activities.

Bobby called his mother last week stating that perhaps he would get a chance to stop in Kansas City on his return from a trip in which he was taking some wounded service men, but Sunday we got a wire stating he was going directly back to San Francisco. I believe that he was to fly so should be with Jean by the time this epistle reaches you.

My best wishes to all at 105 North Courtland.
