--page two; Allen Feb. 20th.

Did not intend to get onto the second page but I noted a rather hot article in a Lawrence paper lately, The Outlook, relative to the Methodist Crusade that is under way and taking you to be a "good" Methodist I wondered if you noticed it and if so what you thought of it and wondered just why the writer put the item up that way.

Guess it makes very little difference but I had not thought that the Crusade was to be anything of a political activity and feel that the object of the Crusade, that is, the money raised for it, would be to follow the Good Lord rather more, and not too much religious following of the administration of the Hearsts or Dulles, Hall or any of those honorable gents.

The article was published about last of January or first of February.

Hope this finds you people and all of yours well and getting along. I see you have Red Cross again and also various activities on your hands. Your life has been kept busy enough so that when you cross over to the other shore, you can get soft seats and golden streets up there and figure (enjoy) out some new defense for the fellows I hope will still be playing ball in that land.

Glad to hear from you any time and if there were any who lost their life at Manhattan, I would like to know it. By the way, I think I can pull enough strings to get McArthur and Nimitz back here to patrol the territory from Manhattan to Lawrence if necessary.

Kindest regards and I am
Very Truly Y
