quite
positive
letter.

Dear Doc:

Greetings to you and the staff from aloha land. Doubtless, this will find you steering the boys to another championship, while yours truly is putting in his licks toward a championship which will take sometime to realize. Ayes Doctor, I'm at the fighting front and have been for sometime. As I told you when I saw you last May, I'm ~~water~~ riding a PT boat and we're not looking for Dorothy Lamour when we buzz around these so-called "glamorous islands" of the Pacific. In fact we patrol all night every other night and on our off nights we are bombed, so you can see that it's sort of hard to keep up on one's sleep.

During my step by step trip out here, I ran in to Gene Haynes.

Lt.
