To Leaders in Education:

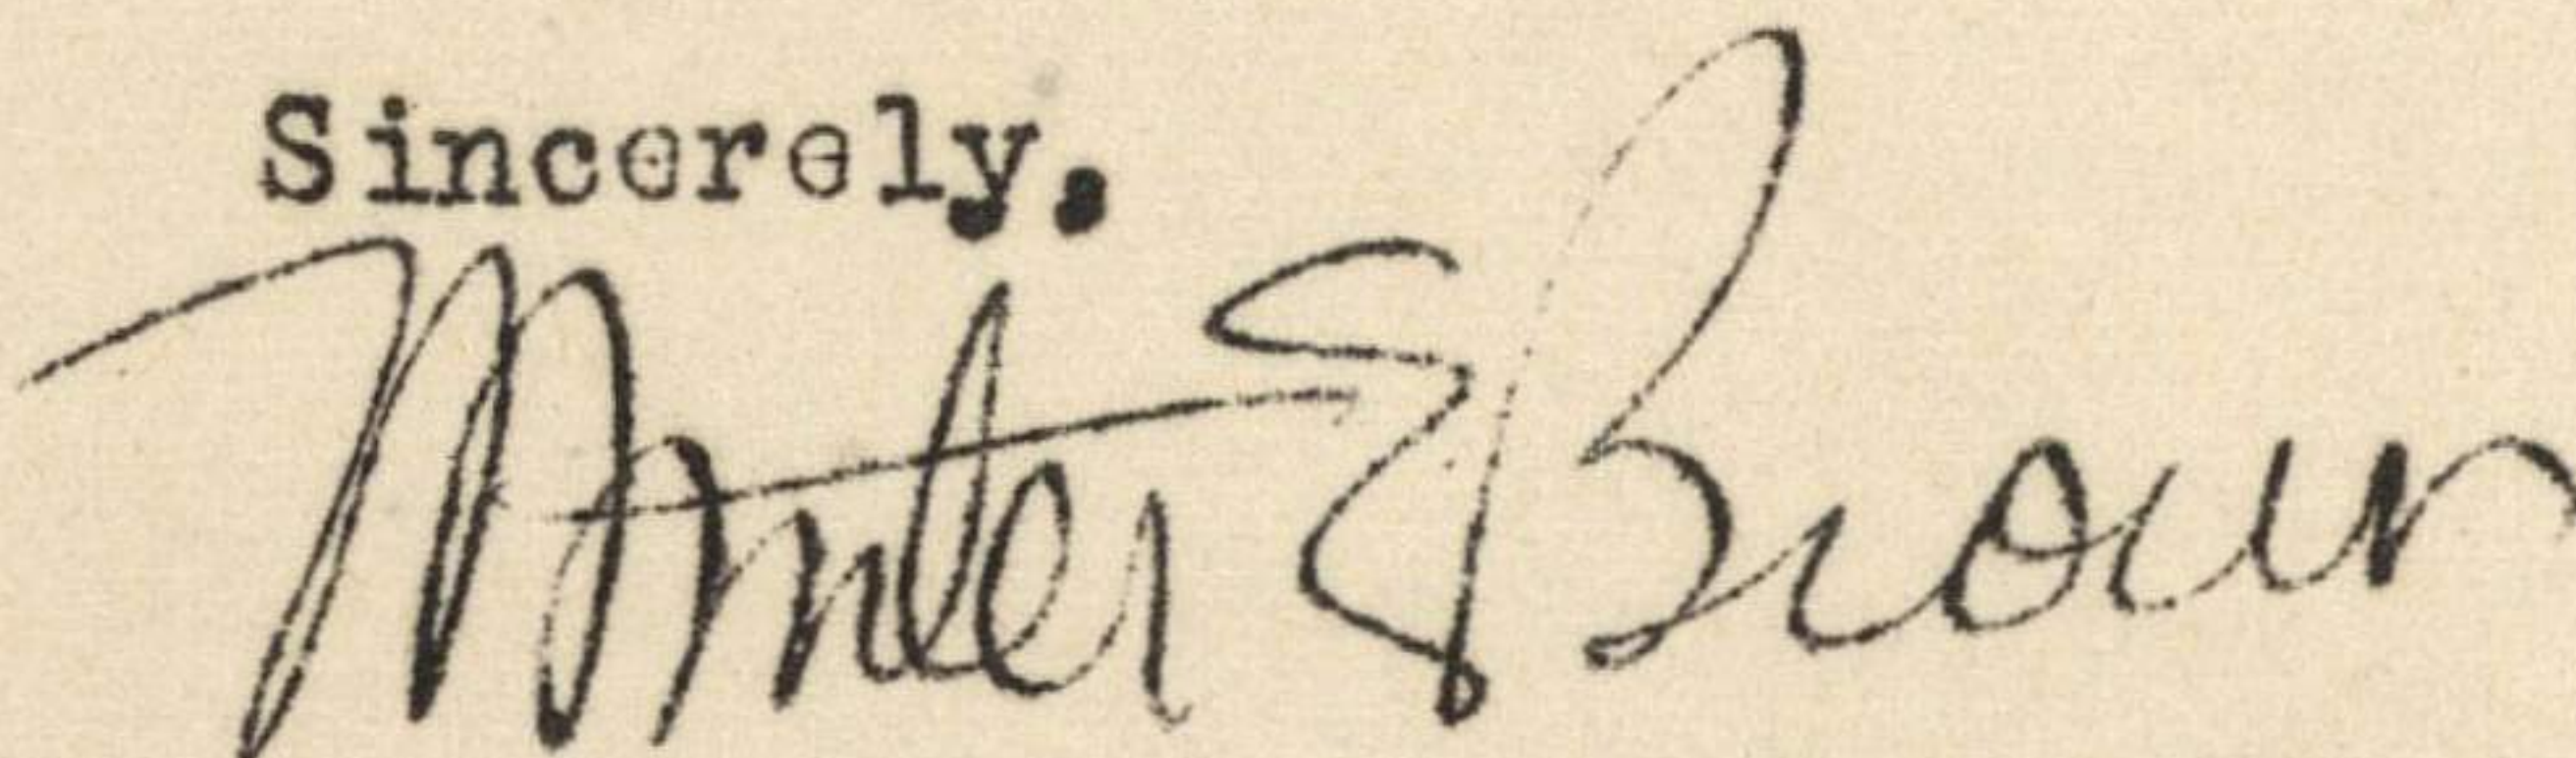

The enclosed "Charter of Faith in Kansas Education" is issued by the Educational Planning Commission of the Kansas State Teachers Association as a progress report on the work of the Commission for the past year.

It has been suggested that the material may be used profitably in summer session education classes, county institutes, study groups of lay organizations, and local teachers associations.

This report may be secured in quantities upon request to the Kansas State Teachers Association, 315 W. 10th, Topeka, Kansas.

The Planning Commission particularly asks your comments and suggestions on the fields covered in this report for guidance in its future work.

Sincerely,

Minter E. Brown, Secretary  
Educational Planning Commission
