Dear Kell:

Those knee pads are swell. Send us another dozen just like these. Yes, they are classy looking articles and we want to doll our boys up all we can. We hope that you will be able to accompany the basketball team to Lawrence.

Yes, we are taking a sling in the Garden because the boys want to develop some cricks in their necks looking at those skyscrapers, but as far as I am concerned, I can stay out of that big city for a long time and not miss it.

With all good wishes to your family, I am,

Sincerely yours,

Director of Physical Education and Recreation  
Varsity Basketball Coach
