

Portis, Kansas,
March 26th, 1940.

Dr. Allen,
Lawrence, Kansas.

Dear Sir:

I am sending this to the KU athletic office.

I do not want to bother you very much but did not know of any better way to get information I want.

Group from here want to go to the KC game Saturday night. But we or they do not want to go and travel the nearly 600 miles unless they are assured of pretty good seats, that is seats near the court. They are willing to pay what good seats cost if they can get same, say close in or maybe on the main floor, as we would even stand on the floor rather than sit away back.

collect.

Will you please wire me at once if five good seats would be available for the game. I could then get definite information to you as to picking up the tickets, or other arrangements of if you get this Wednesday and answer right back by card or letter I would get it Thursday morning. We would not leave till some time Saturday.

I judge one of the seats would be used by Max as I want him to see the game and he could sit most anywhere.

By the way Max got some National Tourney programs and said I might send you one and am so doing under other cover. If you do not have one, it will be interesting.

Don't know if I told you that we are quite sure that Max is highest scoring high school player in nation this year. Eddie Brietz has made some inquiry about it. Max has 49I in 24 games for average of just under 2I per game.

Sorry to bother you, and if you can offer advice we will be glad. If not maybe we can get tickets at KC.

Regards again, and most sincerely,

J. E. Kissell, Portis.
